Program format: *In the Beginning: Making Sense of the Creation-Evolution Debate*

The creation seminar format will be very simple allowing most of the time for the presentations.

Steve Haley, conference president and MC, will take 5-8 minutes for a welcome, to make basic announcements, and pray.

Near the end of the meeting the co-hosts will answer questions that can be texted or emailed to them from the numbers provided on the screen. For those in the MTZ and the PTZ, they may still email and text messages but they cannot be answered during the program because it is a rebroadcast. As many questions as possible will be answered by the hosts for a few minutes immediately following the broadcast and will be answered by returned mail.

Haley will conclude the program with prayer.

The format of the seminar is not to resemble an evangelistic program, but rather a seminar. Therefore, at the live site they are using recorded music before going live with the broadcast.

Remember that it is up to the local church to implement a way to know who has attended. If you are using attendance cards, you would collect them after the satellite broadcast has ended.
