New and At Rest, 1st Qtr 2012

Each quarter we publish a list of those who have joined the ranks of retirement beneficiaries, and those who have passed to their rest. From time to time we are asked to provide the ages of the deceased. We have declined to do this after considering privacy and identity security issues. We are sometimes also asked to not list an individual. Not all beneficiaries are actually retirees, under some of our policies, and may become unhappy upon receiving congratulations from well-meaning readers of the “New Beneficiaries” list.

Medicare Part B Premium Reimbursement Reminder

Most retirees pay a monthly premium for Medicare Part B through the Social Security benefit. For those retirees eligible to participate in SHARP, the plan provides a partial reimbursement of the Medicare Part B healthcare expense by simply increasing the monthly pension by a percentage of the standard Medicare premium. The reimbursement ranges from 50% to just under 90%, and is based on years of qualifying service credit.

Retirees have been asked to photocopy a Medicare card when reaching age eligibility for Medicare. This provides the documentation needed to initiate the reimbursement and the retiree receives a nice little increase in benefits. However the plan will only go back one year for any healthcare assistance, including Medicare B reimbursement.

So,

* If you or your spouse have recently turned 65 and enrolled in Medicare,
* and you are a SHARP participant,
* and you have not already done so,
please send a photocopy of your Medicare card or cards to the retirement plan office. We’d like to give you a raise!

If you are not certain if you are already receiving a Medicare reimbursement, please check your most recent January statement received from the plan. It will show a line item for “Reimb MC Part B” if you are receiving such a reimbursement. It is not necessary for you to send us a copy of your Medicare card if you are already receiving such a reimbursement.

SHARP Corner

In the news over the past few months you may have heard about the merger of two large pharmacy benefit managers, Express Scripts and Medco Health Solutions. The merger of Express Scripts with Medco Health Solutions was completed on April 2, 2012. The combined company will be known as Express Scripts. You will get your prescriptions in the same way as you have done before. There is no change to your pharmacy benefits as a result of this merger. This merger will continue to help drive down the cost of prescription drugs.

- There is no change in the retail pharmacy network
- You will continue to see the Medco name
- No action is needed by you, the member
- You will continue to call the number for pharmacy related questions currently listed on the back of your identification card
- You will continue to use the Medco website and your online account information does not change
- Your medication packaging/labels will remain the same
- You will continue to make your payments payable to Medco Health Solutions
- You will continue to send your prescription orders to the same home delivery pharmacy address
- There is no change in your benefit cost nor in your copayment amounts for brand vs. generic and retail vs. mail order

In our annual review of plan costs with Medco Health Solutions several positive areas were noted as saving the plan money overall. For the plan year of 2011 the retiree group has an 82.2% mail usage rate. This is 6% higher than other church plans we compare to. Our generic dispensing rate is 74.7% for 2011. This is 1.4% higher than other church plans we compare to. The Cost Containment programs we have in place for our Standard SHARP Rx Option provided the plan a 3.9% increase in savings in 2011 from the 2010 plan year. Thank you all for your participation in the cost containment programs in place with the Standard SHARP Rx Option.
