Diet of the Most Simple Kind

Live to eat, or eat to live? Herein, you’ll find the gory details of what today’s food supply puts on the tables of many people. You’ll also find the much more pleasing features of the simplest of dietary fare.

Danny Vierra highlights that modern nutritional science bears out what the Bible says is best for us to eat and not to eat. Biblical counsel stipulates that a plant-based food plan is best. It also lays out a diet
that if one does partake of animal products, which kinds to take in safely and which ones are downright dangerous to healthy living.

**The Power of Fasting and Prayer**

In exploring fasting and prayer, Danny Vierra shares some amazing feats of mind, body, and spirit that are a result of abstaining from indulgences. Not only does today’s society suffer from chronic and fatal disease as a result of gluttony and taking in the wrong kinds of foods, but we also suffer from groggy thinking and foggy spiritual lives.

In today’s era we too can have enriching experiences from fasting and prayer. Biblical evidence is ample that refraining from excessiveness in our lives will be enhancing beyond measure. Should you choose to include these principles in your own life, you will gain strength to stand firm against temptation.

**The Rapture Deception**

Many Christian prophecy books, bestselling novels, and end-of-the-world movies predict that all "true believers" will someday vanish in an event called "the rapture" (being taken to heaven), and that those "left behind" will endure seven years of apocalyptic terror during "the time of Antichrist." Is this true? What does the Bible say?
