Rick Howard’s overview of and personal experience with the dangers lurking in New Age phenomenon is now revised and updated in this second printing. Those who entertain the mechanisms of the “emerging church” trends open themselves to all kinds of evil. Spiritual formation, contemplative prayer, postmodern spirituality, the silence are just a few terms used to describe this spiritualism that is steeped in Eastern mysticism.

Embraced by Catholicism, these teachings are strongly colored by Buddhist and Hindu philosophies, and those who void their minds of everything “spiritual,” actually chant their way into self-hypnotic delusions. Only Satan could devise yet another counterfeit sprinkled with enough truth to make it not only plausible but also inviting. Those who accept the invitation enter at their own peril.

Extraordinary changes are occurring within all Christendom, and The Omega Rebellion exposes the hazards of those changes regarding the deceptions of the “emerging church” movement that is already pervasive. Now is the time to heed this warning.
