Powerful Bulk-mailing Testimonials

NEVER TOO OLD TO LEARN NEW TRUTH

A sweet 91-year-old lady called Remnant asking why she had received such a wonderful book in the mail. She was told that someone loved her and wanted to share the book with her. The woman said she had worked as a missionary and was an avid student of the Bible. She said there were many things in the book she had never heard before, but when compared with the Bible, they were all true.

THEY'RE EVERYWHERE!

Justin was a Bible worker in Manhattan when *The Great Controversy* books began to be delivered to mailboxes. He said he saw people reading the book everywhere, in trains and as they were walking to and from work. While knocking on doors soliciting Bible studies, he met two sisters. He saw a *Great Controversy* on the coffee table and inquired what the ladies thought of the book. They said they had been reading the book and were fascinated with the content. So much so they had been sharing some extra copies they found with church members and family.

DELIVERING TRUTH

A lady in New York City saw the postman delivering the mail and noticed a load of *Great Controversy* books in the mailman's bag. Just to see what he would say, she asked him, "What are all those books in your bag?" The man said, "We have received hundreds of thousands of these books at the main office, and we are delivering them. I was so curious I took one home to read." Then he noted, "This is an amazing book. You have got to read this book!"

PRISON SHARING
A lady from Washington, DC, called to let us know she had received the book in the mail and thought it was wonderful. She was only on chapter 22, yet she still placed an order for a copy of The Great Controversy to be sent to her son who is serving time in prison.
