HIS WORD REVIVES

THE WORD OF GOD IS RELIABLE: God has permitted a flood of light to be poured upon the world in discoveries in science and art; but when professedly scientific men lecture and write upon these subjects from a merely human standpoint, they will assuredly come to wrong conclusions. The greatest minds, if not guided by the Word of God in their research, become bewildered in their attempts to investigate the relations of science and revelation. The Creator and His works are beyond their comprehension; and because they cannot explain these by natural laws, Bible history is considered unreliable. Those who doubt the reliability of the records of the Old and New Testaments, will be led to go a step farther, and doubt the existence of God; and then, having let go their anchor, they are left to beat about upon the rocks of infidelity.

TEST SCIENCE BY GOD’S WORD: Many, when they find themselves incapable of measuring the Creator and His works by their own imperfect knowledge of science, doubt the existence of God and attribute infinite power to nature. These persons have lost the simplicity of faith, and are removed far from God in mind and spirit. There should be a settled faith in the divinity of God's Holy Word. The Bible is not to be tested by men's idea of science, but science is to be brought to the test of this unerring standard. When the Bible makes statements of facts in nature, science may be compared with the Written Word, and a correct understanding of both will always prove them to be in harmony. One does not contradict the other. All truth, whether in nature or revelation, agrees.

MOSES WROTE THE BIBLE UNDER THE GUIDANCE OF THE HOLY SPIRIT: Moses wrote under the guidance of the Spirit of God, and a correct theory of geology will never claim discoveries that cannot be reconciled with his statements. The idea that many stumble over, that God did not create matter when He brought the world into existence, limits the power of the Holy One of Israel. {Selected Messages, Bk. 3, p. 307.}
