The Sabbath Reminds Us of God's Creative Power

Great is the Lord, and greatly to be praised; and His greatness is unsearchable. Psalm 145:3, NKJV.

Infidel geologists claim that the world is very much older than the Bible record makes it. They reject the testimony of God's Word because of those things which are to them evidences from the earth itself that it has existed tens of thousands of years. And many who profess to believe the Bible are at a loss to account for wonderful things which are found in the earth, with the view that Creation week was only seven literal days, and that the world is now only about six thousand years old. These, to free themselves from difficulties thrown in their way by infidel geologists, adopt the view that the six days of Creation were six vast, indefinite periods, and the day of God's rest was another indefinite period; making senseless the fourth commandment of God's holy law. Some eagerly receive this position; for it destroys the force of the fourth commandment, and they feel a freedom from its claims upon them.

Bones of human beings and animals are found in the earth, in mountains and in valleys, showing that much larger humans and beasts once existed. Instruments of warfare are sometimes found; also petrified wood. Because the bones found are so much larger than those of humans and animals now living, or that have existed for many generations past, some conclude that the earth was populated long before the record of Creation by a race of beings vastly superior in size to those now living. Those who reason in this manner have limited ideas of the size of people, animals, and trees, before the Flood, and of the great changes which then took place in the earth.

Without Bible history, geology can prove nothing.... When human beings leave the Word of God, and seek to account for His creative works upon natural principles, they are upon a boundless ocean of uncertainty. Just how God accomplished the work of Creation in six literal days, He has never revealed to mortals. His creative works are as incomprehensible as His existence.--The Signs of the Times, March 20, 1879.
