726 Students Arrive
On L L Campus Today

Wall: IBM
To Ease Load

More than 700 students will crowd the campus today, many for the first time. Ready to meet the influx are the new registrar, Herbert A. Walls, Jr., and his office staff. Registrar Walls said the one-day ordeal should be less trying for students because of increased use of IBM.

There are fewer turns to fill but plenty of activities, said Walls. The day begins at 8 a.m. with freshmen filing into Burden Hall for orientation. Leaving Burden Hall, they will move to the various stations in the graduate school building for a tightly-scheduled registration procedure.

According to Walls, the office anticipates over 300 dental students and 150 medical students on the Loma Linda campus. There will be 40 students in dental hygiene, 80 in occupational therapy, 80 in physical therapy, 100 in nursing, 90 in the graduate school, and six who will study medical records and administration.

Refreshments Follow
Members of alumni organizations will help faculty and other staff members in assisting the students from one station to the other.

After the noon break, students returning to Loma Linda will flock into the graduate school building for their job of registration for a new school year. At 4:30 p.m., the administration will provide games, refreshments, and contests on the recreation field west of the administration building.

Dean Maxine Atteberry, School of Nursing, will emphasize a faculty bond game. New students will then play against old students.

Swimming pool and tennis courts will be open. Prizes will be handed out along with solarium prizes donated by local merchants.

Dean Hinshaw will speak Thursday, September 19, on "Studies in the homograft rejection." Professor Brewer is using monkey kidneys to study the problem of organ rejection.

Dean Brewer: On Wednesday, September 18, at 3:00 p.m., the administration building will be open to meet the influx of students and faculty.

Dean Clark: Very Choice
As new students surge through the corridors of the administration building today, they may meet the man who opened the University's door to them, Dr. Dean of Students, Walter B. Clark. "These are very choice students," he says in recollection of a long trip to the college campuses where he found them.

Dean Clark returned to Loma Linda University with a very select list of "university hopefuls" after two trips to eleven colleges during 1962 and 1963. He met many more than those finally accepted.

Dr. Hinshaw will speak Thursday, September 19, on "Studies in the homograft rejection." The Hinshaw family has spent a few days in Spain and Switzerland while the doctor was preparing for his presentation.

Professor Brewer is among the new students in occupational therapy, where there will be some 40 students.

Raymond E. Ryckman, assistant professor of microbiology, is instructing John N. Sandness, graduate student in microbiology in the techniques of collecting parasites from swallow nests collected in Wisconsin.

No Editorial Bias

We have received many constructive criticisms of the first issue of SCOPE and most of the suggestions we have received will be incorporated in future issues.

This seems a good time to put in the record what we stand for. We will counteract any editorial bias, there will be no soft spots and we will endeavor to present all sides of serious questions facing the administration or trustees.

In other words, we will do our best to tell the whole story. Maybe we are naive, but somehow we believe that if the people have ALL the facts, then truth, justice and prevail will.

The Lord willing, we will be here week after week digging, probing and reporting the news, and please do not become over-wrought at a misplaced comma or a "type"—it even happens in the New York TIMES! J.L.P.

Tough Times at Tucumcari

Two sons and I were touring through this old New Mexican outpost the other day when one of the boys commented on the unusual Tucumcari's major industry.

But here we encountered another factor... my uncanny, unfailing ability to cash in on some of life's greatest bargains that come our way.

One such bargain in terms of personal wages per month! Oliver Jacques

The other men and women in the Advent movement.

The other day when one of the boys commented on the unusual Tucumcari's major industry.

So often we are too tanked up to even be aware of this bargain.

Dear Editor:

Congratulations on the University SCOPE!

One of the boys.

Dear Editor:

One of the boys.

URGES COOPERATION

Fullerton, California

Gentlemen:

I have just received my copy of SCOPE, I would like to tell you that I am most pleased with this publication. I hope that everyone will put his little car filled with gasoline and make this a complete success.

Please enroll me for a one-year subscription.

Sincerely,

A.H. Reiswig, M.D.

OBERSCHEER SCOPE

Loma Linda University

Dear Editor:

Three cheers to you on your noble task, and may God's blessing be upon SCOPE. Just happened to see a copy of the first issue, today.

Working to this end, so kind as to put me on your regular mailing list. Thanking you.

Norman Spaulding

Hospital Planning Association

Loma Linda University

RAPS DECEPS

Dear Editor:

The newest publication of Loma Linda University will certainly give us an opportunity to put our best foot forward. A plan like this will fill a need that has long been sought among the medical profession. We are so pleased with Professor Charles A. Weniger, head of the School of Medical Technology, who employs the absolute minimum of medical personnel.

We can assure the lady that newspaper editors and publishers can know and appreciate what we are up against. Here are a few of the editors who write these editorials:

Sincerely,

Marvin M. Gray, President

and as a medium showing the

University Magazine on the

University.

One hour's

Another opportunity that we often miss is the chance to participate effectively in our community's effort to meet local human needs through the UNITED CHARITY's fund drive. Each of us can have the satisfaction of knowing that by giving a dollar we are doing something.

Another opportunity that we often miss is the chance to participate effectively in our community's effort to meet local human needs through the UNITED CHARITY's fund drive. Each of us can have the satisfaction of knowing that by giving a dollar we are doing something.

One such bargain in terms of personal happiness is the contentment that grows from a satisfying philosophy of life. Those without faith in God and in the future are unaware of this bargain.

Being a part of the Loma Linda University family is another bonus. Helping it fulfill its strategic world mission can do more for the psyche than a trip to the French Riviera.

Trustees Act On Resignations
Name Staff, Promote Faculty

LOMA LINDA—The University Trustees recently acted upon recommendations involving 81 faculty members from six of the schools here. Each of the schools listed a number of resignations and received approval of appointments and promotions.

Professor and Instructor Resign

In the Division of Religion, Wilber Alexander, PhD, associate professor of religious communications, resigned August 1. The Trustees heard and accepted with regret this and another resignation by the School of Nursing, Mrs. Carol Anderson, RN, resigned as instructor in public health nursing.

New Assistant Professors

The Trustees also granted promotion to two instructors in physical therapy. New assistant professors in the School of Physical Therapy are Ralph E. Althea, MD, and Sadie H. Blackman, MS.

Associate Professors Resign

In the Graduate School these associate professors have resigned: Mrs. Catherine Graff, MA, nursing; Frank R. Leon, MD, preventive medicine; Donald C. Olson, MD, pathology; Leona J. MacCormick, and Richard T. Walden, MD, preventive medicine and public health.

Emeritus Professor Robert F. Nelson (nursing) also resigned. These resignations will not affect appointments in school other than the Graduate School.

Graduate School Names Thirty

Thirty faculty members were named to posts in eight departments in the Graduate School. Dr. E. Burton Bratt, Jr., is a lecturer in pathology.

In the biology department Donald M. Brown, PhD, will lecture in plant science, Leonard E. Baliss, PhD, in genetics and Arthur E. Bishop, MD, in microbiology.

New biology professor is Lloyd E. Dowse, and Earl Lathrop (EdD) is an associate professor of biology.

In the Department of Chemistry, William Miller, PhD, associate professor of chemistry and Charles V. Rowell, PhD, will lecture.

Dr. Rowell was a professor of chemistry at the University of California, Berkeley. He was also chairman of the Department of Chemistry at the University of California, Los Angeles.

Public Health Staff

In the Division of Public Health and Tropical Medicine, Jack D. Zwemer, PhD, was named professor of microbiology. He is an active member of the American Society of Tropical Medicine and Hygiene.

An active member of the American Public Health Association, he is also a member of the American Society of Tropical Medicine and Hygiene.

Public Health Promotion

In the School of Public Health, John M. Mennell, MD, was named assistant professor of public health.
Loma Linda Adds 44 New Workers During August

Loma Linda — Loma Linda University welcomed 44 new employees to the Loma Linda campus during the month of August. According to Frank S. Robinson, personnel director, the personnel office has listed transferred employees as new additions.

In business, these are Analytte Whiting and Cathleen Cooper, both working for the sanitarium and hospital business office. Sharon Maldonado works for the furniture office, James Powers at the cafeteria and Eudora and Kathy at the snack shops.

The University market has added Delores Warren, Dave King, Lorraine Roberts, Bob Rutchfield and Ralph Thornton.

Loma Linda Dental Hospital now has Kard work for the dairy. New employees are: Napoleon Oglesby, Dennis Crosby and Thomas Craner. David R. Crock is a new maintenance man.

There have been added to the nursing staffs: Martha Jane Banta, Marjorie Joseph, Carolyn Cohan, Widad Mohr, A. June Pale, Mary Ellen Fisher, Barbara Ann Hansen, Irene Thompson and James Howard.

The School of Dentistry has employed Lawrence McIlven, Wilfred L. Lusam and Robert M. Dickenson and Glen Logan.

There are Richard Bolme for Daniels Hall, Anthony Cox for the tonsil office at the sanitarium, Emma Katherine Cos in the clinical laboratory and Alvin H. Jones in the pharmacy department.

Farrlath works in the hospital administrator's office, Charmane Ramirez Rubio, Lor- en, Beverly Peters for Dr. Har- rald M. Walton, director of health service, and Donald A. Kaechele in the dietary department.

The School of Medicine physics department has added Harold Deet to its staff, the Development department for Lita Lider, the Library Elvia Dukakis and physical medicine Betty Martin.

APPLY YOURSELF

Few things are impracticable in themselves, and it is for want of application rather than of means that men fail of success. —Rochefoucauld.

Learning a new language is little Pamela, who has attended special speech instructions in the University speech insti- tute. Associate Professor Kenneth A. Lotz is the teacher.

Secret of Success

The secret of success lies in embracing every opportunity of life and never forgetting that golden phrase: "Use your duty in that station of life in which it shall prove God to call you." —Wellington.
Loma Linda Cafeteria Solicits Suggestions, introduces New Hours

The University food service in Loma Linda has changed cafeterias, hours, Mrs. James (Nola) Bowen, food service director, said this week.

She added that there will be a survey in the cafeterias from September 22 to 27 to determine likes and dislikes of the patrons.

This will give the guests an opportunity to make suggestions regarding the food service, Mrs. Bowen said.

The new schedule is:
- Breakfast from 6:30 to 8 am.
- Lunch from 11:30 am to 1 pm.

9800 Hours To WMH

The Loma Linda Cafeteria will be open Monday through Thursday from 8 to 10 am, and 11 am to 1 pm.

There will be another department added to the University Alumni Research Foundation, one of these days. Earnest L. Lutz is getting ready to direct a special work on imbedding scientific specimens in plastic.

University SCOPE, p.5

Chancel Choir for LLU Students

The well-known Chancel Choir, consisting of University students, faculty and community people, sings for the 10:05 am worship service in the Chapel, which is made up of young people of college and academy age, provides worship each Sabbath morning, stated Mrs. Courville.

The students will follow their usual program, stated Mrs. Courville.

Any member of this class, or faculty and community people, is welcome to attend. The choir is under the direction of Earnest L. Lutz.

University Church Choirs Begin

The University Church began its regular schedule of all choir rehearsals Saturday evening, Feb. 4. H. P. Hicks, minister of music, said this week.

Ten Choirs

The choirs, for pre-school and older adults, provide an opportunity for all age groups to worship in the University Church. More than 100 hours each week are spent in the rehearsals alone, with many more hours for the entertainment of patients, a party for the pediatrics patients, and a newspaper for their own entertainment, stated Mrs. Courville.

Harley E. Rice, Administrator of the University, stated in a farewell statement the class, “You have added youth, energy, enthusiasm and a new outlook to hospital life. I hope we have given you a broader look at humanity and a different approach to life which will be helpful to you in the future.”

Any member of this class, or any other class, is welcome to come during the term of their choir, and either choir will be taken until next semester, stated Mrs. Courville.

Bells for Everyone

Two newly organized handbell choirs, an adults’ choir and young people’s group, are also reaping the fruits of the technique. The groups are performing in the Chapel, with a控制器, and choirs are being organized by the University Church.

Assisting Hicks in the ministry of music is his wife, Patsy, as church organist. She also plays the piano and helps with some of the choirmaster’s duties.

Rehearsals As Follows

Rehearsals are scheduled as follows:
- Senior handbell choir, Tuesday, 9 to 10:30 am; Junior boys choir, 6 through 6:30 pm; Jr. HI Girls choir, 6 through 8, Tuesday, 8:30 to 10:30 pm; Adult Handbell choir, Wednesday, 3 to 4:30 pm.
- Intermediate girls choir, 2 through 4:30 pm; Jr. HI Girls choir, Thursday, 3 to 4:30 pm; Jr. HI Boys choir, Thursday, 3 to 4:30 pm; Jr. HI Girls choir, Thursday, 4:30 to 5:30 pm; Jr. HI Boys choir, Friday, 9 to 10 am; Senior Handbell choir, Friday, 10 am to 12 pm.

The well-known Chancel Choir, boys and girls choir, grades 3 through 5, Tuesday, 3:30 to 4:30 pm; Junior Hi Boys choir, Thursday, 3:30 to 4:30 pm; Jr. HI Girls choir, Thursday, 3:30 to 4:30 pm; Sr. HI Boys choir, Thursday, 3:30 to 4:30 pm; Jr. HI Girls choir, Thursday, 3:30 to 4:30 pm; Jr. HI Boys choir, Thursday, 3:30 to 4:30 pm; Junior Hi Boys choir, Friday, 9 to 10 am; Senior Handbell choir, Friday, 10 am to 12 pm.

Any member of this class, or faculty and community people, is welcome to attend. The choir is under the direction of Earnest L. Lutz.

Chancel Choir for LLU Students

The well-known Chancel Choir, consisting of University students, faculty and community people, sings for the 10:05 am worship service in the Chapel, which is made up of young people of college and academy age, provides worship each Sabbath morning, stated Mrs. Courville.

There is sure the community will be anxious to hear this special group again, stated Hicks.

LOSAnt GEOMSCEMUSPASENT, FAcULTY RECEPTION

New and old students will attend the University Alumni Research Foundation on October 6, 5:15 to 7:45 pm; Chapel Choir, 6 through 8:30 pm; Senior boys choir, 6 through 8 pm; Jr. HI Girls choir, 6 through 8; Monday, 8:30 to 10:30 pm; Senior Boys choir, 6 through 8, Monday, 8:30 to 10:30 pm; Jr. HI Girls choir, 6 through 8, Tuesday, 8:30 to 10:30 pm; Jr. HI Boys choir, 6 through 8, Tuesday, 8:30 to 10:30 pm.

Any member of this class, or faculty and community people, is welcome to attend. The choir is under the direction of Earnest L. Lutz.

The students will follow the usual procedures in registering.

A special reception for students and faculty members is scheduled from 7 to 9 pm in the courtyard of the Belcher Church.
LOE GAYOS, CALIF.—Doctors Andrew J. and Sue Ann Gerlach of Los Gatos, California this week verified the gift of $400,000 to Loma Linda University and the Central California Conference of Seventh-day Adventists on a fifty-fifty basis.

Virgil F. Morris, acting administrator for the Drs. Gerlach, states that the gift was negotiated by Elder Lind of the University’s development office to support the University’s educational program.

Dr. Gerlach was born in La Salle County, Illinois in 1880. Mr. Morris stated that the physician has studied in many institutions of learning and holds numerous degrees in the health sciences.

The doctor has throughout the years contributed articles for many publications on the subject of health. He states that most of the time has been given to private research into mental, spiritual and physical aspects of living.

Dr. Gerlach has been a resident of Los Gatos since 1899 when his parents settled there at 18505 Live Oak Avenue. In 1943 the doctor visited the Loma Linda University and its School of Medicine, Dr. Gerlach mentioned that consolidation plans changed after the meeting.

GLARE OF SUCCESS

There is a glare about worldly success which is very apt to dazzle men’s eyes, - Scare.

Macpherson Attends Ohio Drs’ Retreat

Drs. Donald G. Reynolds, pastor of the Drs. Gerlach, and Linda Schultz have accepted invitations to participate in the program of the pioneering Loma Linda institution until 1918. From Loma Linda, the Trumans moved to Los Angeles where they spent two years, then to St. Helena for two more years, then to Takoma Park, Md., and then to Glendale as medical director and chief surgeon there.

In 1919 the Trumans were called to Tacoma Park, Md. The position there was that of medical secretary of the General Conference. They served Glendale Sanitarium and Hospital between 1919 and 1939 and also at Takoma Park.

Dr. Truman arrived in Ohio in 1939, where he was medical director of the China division until war conditions forced him to leave in 1940. He returned to Glendale as medical director and was called in 1946 to Ardmore, Okla., to organize Ardmore Sanitarium. The Trumans remained there until 1954.

Since that time the Trumans have been “retired” and have been giving medical lectures in schools and churches throughout the nation.

Dr. Truman graduated from the University of Colorado School of Medicine during the year of his marriage. Mrs. Truman graduated from Boulder Sanitarium School of Nursing in 1897. The Trumans have five children: Anetta Truman McCall, MD’56, of Glendale; Roland Truman, a Lakewood attorney; Virgil Truman Rust, an employee of Loma Linda University; Architect W. Truman Jr., of South Gate; and Myrna Truman Namara of Torrance Speech, M.D. There are ten grandchildren.

The celebration at the home of the eldest daughter was also a wedding reception for the couple’s grandson, Devere McCaffrey Jr., and his bride, D-Ann Goley, the daughter of Dr. and Mrs. Donald E. Goley, MD’41, of Phoenix, Ariz. The young McCaffreys were married in Arizona August 7.

Dietetic Students Graduate Here

Graduation exercises for the Loma Linda University School of Nutrition and Dietetics were August 29 in Olivet Chapel. Twelve students received Loma Linda University certificates and American Dietetic Association pins. Speakers for the occasion were Donald G. Reynolds, pastor of the White Memorial church and Dr. Thomas A. Little, dean of the Graduate School.

Dr. Keld J. Reynolds, vice-president for academic affairs presented the certificates and Dr. Ruth Little, director of the School of Nutrition and Dietetics, presented the pins.

The graduates are planning widely-varied programs: Miss Rose Boll, chair president, has been appointed internship-clinical instructor for the School of Nutrition and Dietetics.

Mr. Wilmer Snyder will go to Walla Walla College as dietetic food service director; Marian Fehren, Edith Reiter and Darrell Cunningham will continue graduate study.

Selma Chaij, Betty Eaton, Gracey Dodge, Bernice Humeny and Linda Schultz have accepted positions in dietetics; and Ellen Velasco and Anzie Cristofalo are returning to the Philippines to pursue their profession.

The students graduated from a scientific and practical program fully accredited by the American Dietetic Association.
Four Big Employers Will Interview LLU Students

LOMA LINDA — Four institutions have confirmed reservations for interviews with interested students and on the Los Angeles campus for the week of October 10-16. More details of placement service, says this might be the biggest year ever in recruitment interviews.

He added that other tentative appointments for the placement interviews have been made; "From correspondence with conferences and institutions we will be interviewing for the first time in Southern Adventist University," he stated.

ILLSCAN Presents Orchids to Young Hospital Volunteers

Loma Linda Nursing Students Will Be Interviewed for Positions by Four Institutions

She added that "Our work with people and the hospital staff are the most outstanding volunteers at Loma Linda Sanitarium and Hospital was Doris Dodson. She had a record of 1398 hours of voluntary service at the hospital. Presenting orchid lei to Miss Dodson was Mrs. Dorothy F. Beltz, director of volunteers.

She stated that "Our medical group and handymen (boys), they belong to the colorful group called candystripers (girls) and handymen (boys)." She added that "Their work helps the hospital and is very important to the hospital services and helps in presenting the front view of the routine duties.

She added that "Volunteer activity is very valuable to the youth as career exploration, work and service experience and will add in personality and character development." She continued that "Our clinic and handymen are very valuable in the hospital."
