School of Dentistry Alumni, Students

List Speakers

The chief dental officer of Walter Reed Army Medical Center heads the list of prominent speakers at the Loma Linda University School of Dentistry alumni-student convention. In a scheduled keynote address February 20, Col. Robert B. Shier, MD, will speak to the alumni in a meeting at Border Hall. The February 19-23 convention will feature commercial exhibits, table clinics, a scientific program, entertainment, and special religious services and an evening awards dinner at the last day of the convention.

The keynote address for dental hygienists will be delivered by Ronald Harvey, PhD, a clinical instructor in psychology at the University of Southern California.

Wednesday — the Beginning

The first meeting, February 19, will discuss the subject "How to Succeed in Dentistry Without Even Trying." The meeting will be held in the Burden Hall conference room, beginning at 8:30 a.m. The evening will consist of an awards dinner at the Loma Linda Hotel.

LSH Announces

Additions to Staff

Loma Linda Sanitarium and Hospital announced this week the addition to its staff of nine new members whose appointments were approved by the Loma Linda Sanitarium and Hospital Board of Directors and who will serve in the following capacities: Dr. Merle L. Schwandt, MD, assistant professor of medicine and rehabilitation; Jerrold K. Longerbeam, MD, associate professor of surgery; William G. Slate, MD, professor of psychiatry; Varner J. Johnson Jr., MD, professor of medicine; William L. Fowler, MD, professor of pediatrics; and Larry Sharp, vice president for financial affairs.

CLASS OFFICERS of the freshman class in the School of Dentistry are (l. r.) S. Ernest Blentelay, social activities director; Oliver H. Scheldeman Jr., vice president; Franklin E. Baughman, president; Franklin D. Poirier, sports activities director; and Willard E. Hodgkin, secretary-treasurer. Absent was John L. Van Denburgh, chaplain.

The University Trustees last month presented the addition to its staff of nine new members whose appointments were approved by the Loma Linda Sanitarium and Hospital Board of Directors and who will serve in the following capacities: William L. Fowler, MD, associate professor of pediatrics; C. Joan Coggin, MD, assistant professor of physical medicine and rehabilitation; jerald K. Longerbeam, MD, associate professor of surgery; C. Joan Coggin, MD, assistant professor of medicine; Al- lison L. Schwindt, MD, assistant professor of medicine; and Hugh J. Thompson, MD, assistant professor of surgery.

Vice President Pettis Resigns;
A Candidate for US Congress?

The University Trustees last week accepted the resignation of Jerry L. Pettis, vice president for public relations and development.

The action was taken at the request of Mr. Pettis, University President Godfrey T. Anderson, announced.

The reasons given by Mr. Pet- tis for his resignation were not officially disclosed, but speculation gives that the 45-year-old Loma Linda resident will announce his candidacy for the House seat.

The resignation, already effective, will be March 10 through 12 at the Los Angeles Ambassado- dor Hotel.

The Governing Board

The Alumni Postgraduate Convention Governing Board comprises, besides Chairman Dr. Hallatt: C. Joan Coggin, MD, SM®53-A; Walter G. Case, SM® 52; Robert L. Marsh, SM®4-B; Samuel H. Frittz, SM®46; Frederick H. Harrison, SM®72; and Arthur B. Webb, SM®56.

The convention will begin March 6. Friday night, at the White Memorial Church in Los Angeles.啮dinary services; March 7, will also be at that church.

A successful rancher, electronics firm president and public relations executive before he accepted the University vice presidency in 1961, Mr. Pettis is also chairman of the board of councillors, a voluntary businessmen's group advising the president on University development. He has been on the School of Medicine faculty since 1948, serving since 1954 as assistant professor of cultural medicine.

"To express regret at losing the services of no able an official, but more than able an officer," Dr. Anderson declared. "The University is highly grateful for the outstanding way in which Mr. Pettis carried his responsibilities here. We will expect to see great things develop as he turns his attention and energies in other directions."

JERRY L. PETTIS

for the House seat have appeared in scattered parts of the county during recent days.
No Political Expression . . .

The political activity and excitement associated with a presidential election year are already in evidence across the nation. Loma Linda is not to escape exposure to the quadrennial campaign fever.

The prospect of a Loma Linda resident and former University vice president seeking election to the U.S. constitutional government. Serious consequences could follow such apparent involvement of the University in the volatile world of politics. The protection and perpetuation of that form of government and its freedom and privileges, is the objective of the campaign to which they contribute their opinions.

Restrains must be exercised, however, to prevent the enthusiasms of any member of the University family from appearing to reflect the official view of the University. Serious consequences could follow such apparent involvement of the University in the volatile world of politics.

Article Seven of the University’s articles of incorporation specifies that the corporation shall be operated exclusively for educational purposes, that “no substantial part” of its activities shall be to influence legislation, and that it “shall never participate in (including the publishing and distributing of statements) any campaign on behalf of any candidate for public office.”

An administrative interpretation of this article suggests that its violation would be effected if the supporters of any candidate

1. Affixed political posters or stickers to any University owned vehicle or other property.
2. Used University stationery or telephone in any promotion of their candidate.
3. Allowed a University office or other site to be used as the center for distribution of campaign materials or for recruiting partisan election support.
4. Took advantage of campus mail service facilities for distributing campaign materials on behalf of their candidate.

The prohibitions would not be construed to include non-partisan activities such as voter registration, which in years past have been conducted on the campus for the convenience of students and personnel.

Wonderland . . . University?

I believe I can guess that,” Alice told her companions at the Mad Hatter’s tea party when the Mad Hatter proposed a riddle.

“For the benefit of the less listeners and readers are misled by their happenstance. To the conscientious and accurate person this opportunity seems a golden chance to give the biographer his due place in the history of Pierre Laval.”

President Charles de Gaulle of France has banned Hubert Cole’s biography of him, La Valse éteinte, on the ground that the book’s depiction of the former Prime Minister of France is “false.”

A Different Man?

Unfortunately, it is impossible for us to verify Mr. Cole’s accusations against Mr. Laval, as the book is not available, the conference sponsor not available, the conference sponsor not available, the conference sponsor not available.

Mr. Cole has attempted to achieve a balance, albeit a less than happy one, in his book. He has endeavored to write revisionist biography, to present an unscrupulous opportunist, to give the biographer his due, to give the biographer his due, to give the biographer his due.

To the serious student this attempt at unscrupulous opportunism is a failure. Mr. Cole has attempted to achieve a balance, albeit a less than happy one, in his book. He has endeavored to write revisionist biography, to present an unscrupulous opportunist, to give the biographer his due, to give the biographer his due, to give the biographer his due.

Mr. Cole has attempted to achieve a balance, albeit a less than happy one, in his book. He has endeavored to write revisionist biography, to present an unscrupulous opportunist, to give the biographer his due, to give the biographer his due, to give the biographer his due.
OPENING CEREMONIES for Loma Linda Sanitarium and Hospital were on the institution’s hilltop site in 1906. Ellen G. White (standing, right), presiding in deciding the location of the medical-educational center, was among the speakers at the formal dedication. In the rear may be seen the original sanitarium building, which prior to its purchase by the Seventh-day Adventists was a financially unsuccessful resort hotel. Its main entrance, on the far side in this photograph, was reached by a steep stone stairway beginning at the foot of the hill just a few rods south of the Southern Pacific passenger terminal since destroyed by fire. The building is still in use by the schools of nursing and physical therapy and the Occupational Therapy Curriculum.

three SM Alumni to Head Medical Staff at Glendale

The Loma Linda University School of Medicine graduate has been elected to head Hemmeyer medical staff at Glendale Sanitarium and Hospital for 1964, and chief of staff is John K. Streicher, SM-46; chairman, Merlyn T. Purvis, SM-67; and secretary, Hirsdale, SM-46. Formal installation of the physicians took place at the meeting of the medical staff members and their wives to the main dining room of the hospital.

Dr. Streicher served in the United States Army Medical Corps prior to establishing his practice in internal medicine in 1955. He is a member of the Burbank Rotary Club and is a member of Glendale Sanitarium hospital staff. A son, Waldo Streicher, is a sophomore in the University School Building.

A Groen Named Chaplain Director

Dr. W. C. Groen, SM-57, has been named director of the new El Cerrito Hospital, a three-story, 70-bed facility for acute patients.

Dr. Groen entered the medical profession in 1928. He became director of the Los Angeles County General Hospital in 1959. He retired from the Naval Medical Corps after 28 years of service with the rank of captain.

Loma Linda University

Dr. Groen studied at the University of Redlands and at Loma Linda University.

University SCOPE, page 3

Tax Deductions Valid for Some Research, Publication Expenses

College and university professors are entitled to federal income tax deductions for expenses incurred in research and publication activities directly related to their faculty responsibilities, according to the ruling of the Internal Revenue Service.

The deduction would not be authorized in situations where the tax was reimbursed for his expenses by the employing institution, however, or if the expenses were incurred during his participation in projects outside his "area of competence," the ruling indicates.

IRS Statement

"It is held that research expenses, including traveling expenses properly allocable to research, incurred by a professor for the purpose of teaching, lecturing, or writing and publishing in his area of competence, as a means of carrying out the duties expected of him in his capacity as a professor and without expectation of profit apart from salary, represent ordinary and necessary business expenses incurred in that capacity and are, therefore, deductible under section 162(a) of the Internal Revenue Code," the IRS stated.

"Slagging and other expenses incurred in preparing a manuscript for this purpose and its publication costs are likewise deductible as business expenses under section 162(a) of the Code.

May Require Proof

"... the responsibility rests with each professor to show that the amounts claimed are reasonable in relation to the research performed and that the research is in his area of competence; that is, that the research is directly related to the general field in which the professor is performing services as an educator."

"... This ruling does not cover the situation where a professor's activities may bear some similarity to those described above but are such as to constitute a separate trade or business."

KEMR Radio

KEMR FM radio is on the air every day except Sunday, Tuesday and Thursday. Dial 88.3 on your FM radio for good worship and music programs.

The weekly program is:

MONDAY

8 a.m. - University convocation

TUESDAY

6:30 p.m. - Your Story Hour

7 p.m. - The Sound of Worship

5:30 p.m. - BYF Concert Hall

FRIDAY

5:30 p.m. - The Voice of Prophecy

7 p.m. - Inspirational Interlude

6 p.m. - University Fellowship (University or Hill Church)

SATURDAY

8 a.m. - A Time for Singing

8:15 a.m. - Prelude to Worship

ERNST L. WYNDER, MD, director of epidemiological research at the Sloan-Kettering Cancer Institute and a leading authority on the relation of smoking and health, will lecture to sophomore students of medicine in Loma Linda December 18. Charges by Dr. Wynder and other researchers (including several from Loma Linda University) that cigarette smoking contributes directly to a group of major public health problems were confirmed last week by an impartial scientific panel appointed by the U.S. Public Health Service. -Photo by Walter Emori

UCLA Professor

To Address Sigma Xi Club at Campus

The Sigma Xi Club will have as guest speaker at its January 30 meeting Dr. Theodore L. Jahn, professor of zoology at the University of California, Los Angeles.

He will address the group in the first floor amphitheater of Bovard Hall at 12:15 p.m. on the subject of "Locomotion of Flagellates and Spirochetes."

An authority on locomotion in certain microorganisms, Dr. Jahn will present his findings and the concepts associated with them, according to Donald M. Brown, chairman of the club program committee and research associate in the department of microbiology.

In his research, Dr. Jahn has studied the mechanical, electrical and chemical factors associated with locomotion of certain microorganisms.

He will be presented by Ardel A. Roth, PhD, chairman of the department of biology, which is sponsoring the meeting.

The lecture will be illustrated by motion pictures and slides.

Malaria Subject

Of Speech Here

At a recent meeting of the Sigma Xi Club, Dr. Irwin Sher- man, assistant professor of zoology at the University of Cali- fornia, Riverside, spoke on the topic of "Physiological Studies of a Blood Parasite: Malaria."

He showed that by comparing enzyme systems in the host and parasite, it is possible to deduce biochemical mechanisms which determine how malaria parasites grow at the expense of the host cell, and their dependence on this cell for survival.

The meeting was sponsored by the department of micro- biology.

The building is still in use by the schools of nursing and medicine. The new El Cerrito Hospital was chosen in part because the schools of nursing and medicine were financially unsuccessful resort hotel. Its main entrance, on the far side in this photograph, was reached by a steep stone stairway beginning at the foot of the hill just a few rods south of the Southern Pacific passenger terminal since destroyed by fire. The building is still in use by the schools of nursing and physical therapy and the Occupational Therapy Curriculum.
Medical Mission to Benefit From SM Auxiliary Program

The Woman's Auxiliary to the School of Medicine Alumni Association will present a California Dentists Showing to be televised to the program of the Loma Linda University School of Dentistry. The show will be televised from the Loma Linda Hospital Auditorium on Friday, February 7, 1964, at 7 p.m. All proceeds will be used to support the Women's Auxiliary to the School of Medicine Alumni Association.

Midgley to Show "Chucklelogue"

"California Mountain Holiday," a chuckleogue in color, filmed and narrated by Stan Midgley, will be presented as an entertainment at the University of California Los Angeles on the following dates: Thursday, February 6, from 9 a.m. to 12 noon; Friday, February 7, from 9 a.m. to 11 a.m.; Saturday, February 8, from 10 a.m. to 12 noon.

LACMA Officers Elected for 1964

The first showing was scheduled for February 6, and the second showing for Friday, February 7, at Loma Linda University. The film, to be in Burden Hall at 7 p.m. at this time, will be shown again <.

Friends Honor Departing Family

A farewell party in honor of Dr. and Mrs. Robert M. Shrewsbury, who left soon after this, for Nigeria, West Africa, was conducted recently at the home of Dr. and Mrs. Harry W. Volleter, 1945 Iris Street. The Shrewsburys will serve as missionaries at the Ille-Ife Hospital. A graduate of Loma Linda University, Dr. Shrewsbury also attended Pacific Union College and Vincent Medical Center in Berkeley, Calif., where his parents, Mr. and Mrs. Oliver Shrewsbury, were missionaries from 1921 to 1933. He returned to Loma Linda two years ago, Dr. and Mrs. Shrewsbury did mission work in India, Pakistan, and Burma. During their two-year stay in Loma Linda he completed a residency in anesthesiology.

Medical Record Stands Out as One of Two Approved in State

"The Medical Record Administration Curriculum of Loma Linda University has received approval from the Council on Medical Education of the American Medical Association, according to Faye Brown, director of the curriculum.

"The council has also approved Mrs. Brown as the curriculum director. She is also director of the medical record service at Loma Linda Sanitarium and Hospital."

Employee Credit Union Returns High Dividend

The Loma Linda University Federal Credit Union has paid members a 4.4% per cent dividend on savings for the last half of 1963. Dividends are credited according to James E. Yolton, president.

In addition, it has added a 1 per cent refund toward interest on loans for the past year. A certificate credit union is available to borrowers if income from the credit union's investment is the only source of funds.

The credit union, which was organized in 1955 for the benefit of Loma Linda campus employees, faculty and students, now has 3,925,606 in its assets.

During the last year, loans totaling $435,877 were made. On January 26 the association elected new officers who will be presented in the credit union. In addition, a report of the credit union was made by the annual report of the credit union.

Mike Brown: "Our program a great deal," says Mrs. Brown, "and we feel quite satisfied. Medical record librarians are in very short supply."

"The University now has one of 36 approved medical record administration curriculums in the United States, and one of two in California, the other being at the University of California, Los Angeles."

Loma Linda University and UCLA curriculums are combining the use of actual hospital records and a laboratory system in which records are duplicated, thus making it possible for an entire class to work on and discuss the same record. Mrs. Brown describes this as "a fairly new trend."

Midgley was elected president of the association.

The first showing was scheduled for February 6, and the second showing for Friday, February 7, at Loma Linda University. The film, to be in Burden Hall at 7 p.m. at this time, will be shown again <.

LACMA Officers Elected for 1964

For the first time in recent years Loma Linda University library alumni or faculty members among the officers of the Los Angeles County Medical Association.

The annual election of officers for the Los Angeles County Medical Association was held on Thursday, February 6. The following officers were elected: Henry G. Good, Jr., president; John A. Bullis, MD, Los Angeles (vice-president); John E. Stine, MD, Downey (vice-president); and George C. Anderson, MD, Hermosa Beach (secretary-treasurer).

Dr. Anderson was elected by a wide margin against incumbent secretary-treasurer Roger W. Barnes, professor of urology at Loma Linda University School of Medicine. Dr. Barnes has long been active in affairs of the association.

"This approval strengthens our program a great deal," says Mrs. Brown, "and we feel quite satisfied. Medical record librarians are in very short supply."

"The University now has one of 36 approved medical record administration curriculums in the United States, and one of two in California, the other being at the University of California, Los Angeles."

Loma Linda University and UCLA curriculums are combining the use of actual hospital records and a laboratory system in which records are duplicated, thus making it possible for an entire class to work on and discuss the same record. Mrs. Brown describes this as "a fairly new trend."

Seven Now Enrolled

Enclosed in the new University curriculum are seven students, all of whom have completed three years at a liberal arts college in preparation for admission to the curriculum. With successful completion of the one-year course at Loma Linda, they will be awarded the Bachelor of Science degree and will be eligible for the national registration examination for medical record librarians.

After passing the examination they will become registered record librarians and active members of the American Society of Medical Records Librarians.

The examination was passed recently by Esther Evanenko, assistant medical record librarian at Loma Linda Sanitarium and Hospital.

Prior to graduation, the seven enrolled in the curriculum will be eligible for registration through the American Society of Medical Records Librarians.

Hospitals with which the University expects to have a permanent affiliation for purposes of the curriculum are: Cedars of Lebanon Hospital, UCLLA Medical Center, White Memorial Medical Center, all in Los Angeles; and Kaiser Foundation Hospitals, Panorama City. An affiliation with Kern County General Hospital, Bakersfield, will be in effect later this year.

The first showing was scheduled for February 6, and the second showing for Friday, February 7, at Loma Linda University. The film, to be in Burden Hall at 7 p.m. at this time, will be shown again <.

SCHOOL OF DENTISTRY senior class officers are (l-r) George F. Frey, president; Melvin D. Sage, chaplain; Robert C. Anderson, vice-president; Ernest J. Kijak, vice-president; and Marilyn Opincar, secretary-treasurer. A need for Adabas libraries in the English language has been called to the attention of the Woman's Auxiliary to the School of Medicine Alumni Association.

RTA, the dental society of the American Dental Association, has accepted a call from Addis Ababa, Ethiopia, to teach children of missionaries and orphans in that area.

A need in Addis Ababa for library books in the English language has been called to the attention of the Woman's Auxiliary to the School of Medicine Alumni Association.

All books should be turned in within the next two weeks.
The institute will include three La Sierra College teachers, Dr. Donald Lee, NSF Summer Science Institute director, La Sierra College, Riverside, California, and 92505.

The La Sierra College science institute is part of the NSF continuing program to upgrade junior and senior high school science teachers. Each year the NSF makes approximately 420 similar grants to colleges and universities.

To include 50 Teachers
The NSF grant will cover 50 living costs for 20 science teachers who will be accepted for an eight-week session on the La Sierra College campus, Loma Linda, California. It will cover also the cost of providing a teaching staff. The institute, offering eight weeks of college credit, will be held to study, lecture, and discuss every work and discussions and to provide a structure of matter. Emphasis will be on physical, chemical and the structure of order.

Grants junior and senior high school science teachers are eligible to attend. Preference will be given to those on the basis of need for additional preparation in science and their academic responsibilities in the teaching of biology, chemistry and physics.

Those whose teaching does not exceed a second course in more than one of the sciences and those who will teach at least two courses in biology, chemistry and physics the following year will be given first preference. Interested teachers should write to Dr. Donald Lee, NSF Summer Science Institute director, La Sierra College, Riverside, California, 92505.

The La Sierra College science institute will consist of study, lectures, lab devoted to the structure of the cell. Emphasis will be on that with increased facilities and improved conditions in the future nursing profession will grow rapidly.

Chemistry
In this week in the history of LLU
1913 The Medical Evangelist reported: "Last year the patro- nage (of Loma Linda Sanitarium and Hospital) ran to over 100 patients, and at one time there were over 20 on the waiting list for the room that could be accommodated in the institu- tion. The growth of the Loma Linda Sanitarium the past sev- eral years justifies this statement that with increased facilities and improved conditions our patronage will grow rapidly.

1914 Much damage was done in Loma Linda by floods.

1961 A School of Medicine alumna, Dr. Stanley G. Cushman, professor of physics, University of California, Berkeley, was chosen one of 1961's Ten Outstanding Young Men.

Colleagues Hear Speech Pathologist
"The Role of the Physical Therapist and Occupational Therapist in the Treatment of the Aphasic Patient" was discussed by Mary C. Longerich, PhD, nationally known speech pathologist, at the recent com- bined meeting of the Southern California chapter of the American Physical Therapy Association.

Dr. Longerich is a consultant in otolaryngology for Loma Linda University School of Medicine and a consultant in aphasia therapy at Orthopedic Hospital, Los Angeles. She has done much work in the treatment of the aphasic patient, and has published books and several articles in professional journals on aphasi-

Summer Jobs Open in Europe for American Students
Summer jobs in Europe are open to students under the auspices of the American Student Information Service, Grand Duchy of Luxembourg, and the American-European Student Exchange Program.

Only registered college students and teachers are permitted to apply for the ASIS summer job program, which offers work in Great Britain, France, Germany, Switzerland, Italy, Spain, Sweden, Finland, Norw- way, Luxembourg, Belgium, Holland, Austria, Israel and Liechtenstein.

The program also offers each job applicant the op- portunity to apply for a travel grant ranging as high as $300. More than 500 summer job openings are available to both men and women including work at resort hotels, offices, hospitals, construction sites, summer camps, and other places.

Wages range up to $400 per month for the highest paying positions in West Germany. Working con- ditions are the same as those charged in Europe with whom stu- dents work.

All jobs are pre-arranged before students leave for Europe, with ASIS making all required arrangements including work permits, health and accident insurance, tax exemptions and living accommodations. In most cases, room and board are pro- vided free. If not, students live independently in the city where they are working.

Every student placed in a job attends a five-day orienta-
tion program at ASIS head- quarters in the Grand Duchy of Luxembourg. Although there is usually no foreign language requirement for the jobs, stu- dents are given opportunities to experience native European cultural customs during the orientation period, in which subjects on how to save money while in Europe, local cost transporta-
tion, shopping discounts and living accommodations will be discussed. Stud- ents are free to travel to other European countries by university student pass.

A 24-page prospectus con- taining additional information and application forms may be obtained by writing to: American Student Information Service, Department III, 22 Avenue de la Liberté, Luxembourg City, Grand Duchy of Luxembourg. To cover cost of handling and air mail reply, $1 must be in- cluded.

Under the American-Euro- pean Student Exchange Program, students will receive wages based on the European economy plus room and board in return for their work.

For further information and applications forms write to American European Student Service, Via Santorini Santa- ria 22, Firenze, Italy.
A gift of appreciation was presented to Mrs. Everett L. Mason by the School of Nurs-
ing Alumni Association for her 41 years of service as executive secretary.

The award was made at a recent meeting of the board of directors in the home of Dr. and Mrs. Bo Ying Wat, 9448 La Jolla Avenue. A Chinese dinner was prepared for the group by Bobbi Hand, assisted by Kathryn Stetler, chairman of the program committee.

The work which was done previously by Mrs. Mason now has been transferred to the office of the Alumni Federation under the direction of Executive Secretary Viola Lutz.

EVENTING A CHINESE DINNER at the home of Dr. and Mrs. Bo Ying Wat be-
fore the board of directors meeting of the School of Nursing Alumni Association (seated, lr.) Mrs. Kenneth R. Lutz, executive secretary of the Alumni Federation; Mrs. Alex R. Montgomery, SN'72, administrative assistant in the school; Everett Mason, former executive secretary of the association; Miss Jeanne Middleton, SN'30, associate professor of physical therapy; Miss Verna Kuhn, SN'61, Miss Marilyn An-

In other business, Bessie Falconer, treasurer, reported that the books had been audit-
ed at the close of 1963 and found to be in satisfactory con-
tion. She also reported on a new system of bookkeeping which has been set up and will be used in the future.

Mission Project Study

After hearing an account by Dorothy Kuzev, chairman of the missions committee, of re-

sponses to questionnaires on needs and projects in the missions field, the board voted that the committee examine and specify projects to be undertaken by the association.

The board also voted to give $613.15 to Loma Linda University for the School of Nursing building.

PRESENTING A CHECK for $613.15 to William 0. Reynolds, University director of development, is Bessie Falconer, SN'22, treasurer of the School of Nursing Alumni Association, for the vote at a recent meeting that the money be used for the new School of Nursing building.

WIDER SCOPE

"I would like to resurrect my father," Harold Utt, a senior in the School of Dentistry, told a group of students at the University last week.

Young Utt was surprised, to put it mildly, when he saw a seminar on "Presenting a Check" referred to his father as the late Charles Utt.

Having assured us that his father is still going strong (and that we all share his happiness that this is so), in an attempt to trace the error, we did find a news release that used the ex-

"Our system was at fault. There is, of course, no ex-
cuse for such misprints as this. What the story purportedly said was that Mr. Utt had been an assistant editor of the Signs of the Times."

"We are telling this story not only because it shows how very unfortunate it is. It also serves as a reminder that the work of the missions is a small rea-

"A Good Story?"

Not long ago, we happened to take some really money- pictures. A contractor was excav-

ating a street where some huge storm sewer was supposed to go. We thought a few pic-
tures would be taken in time to warn the workers of the crane digging there would be an accident. It was a picture which would show the men in the picture being killed by the crane. A broke and the big shovel crushing men to death.

Then the troubles began. An-

other editor wrote his own ver-

tion of the accident, saying that our pictures were taken seconds before the life of the men were snuffed out. His editor-in-chief and our report-
er had been there. His con-

clusion was that we knew who was at fault.

The contractor didn't share the editor's point of view. He said the crane, which is the accident, saying that our pictures were taken seconds before the life of the men were snuffed out. His editor-in-chief and our reporter had been there. His conclusion was that we knew who was at fault.

A delegation of four from Loma Linda University is taking a tour of three hospitals in the Detroit area to observe outpatient programs at the request of Dr. D. Baldwin Hunsberger, dean of the School of Medicine.

At St. John's Hospital, Detroit, Dr. Bryan Brown, assistant professor of the Medical Record Department at the University, inspects the medical record department and the student rotation. Also visiting St. John's is Clarence A. Milt, Loma Linda Sanitarium registered nurse and administration assistant business administrator; furniz F. Zirkert, SMED, assistant clinical professor of gynecology and obstetrics; and Robert D. Marshall, SMED, assistant clinical professor of medicine.

Hospitals they will visit are Henry Ford Hospital, Detroit; University of Chicago, Chicago; and Mayo Clinic, Rochester, Minnesota.

After visiting all three hospital systems, a group of 13, led by Dr. Wallace Brown, will meet February 3 in Detroit to discuss their observations with Elbridge G. K. Ford, dean of the University of Michigan, University of Chicago, and Mayo Clinic. Dr. Ford will serve as a consultant to the medical record department of the University.

I

Thursday - Big Day

After registration at 8 a.m., the outgoing president, Dr. Henry S. Warren, will preside at the opening of the convention. Representatives will be Delmar L. Lear, executive director of the Student Association. The keynote address will be given by Dr. Henry S. Warren, who will follow, "Science and the Public" will be the theme of the day. The day will close with the annual banquet at 5:30 p.m., at the Azure Hills Country Club, which is the number preceded by the letter "A" appearing on the covers of the convention program. The day will be east of the Medical Center building.

Hours are 10 a.m. through 6 p.m.

Shorel Willer will lecture for the Dental Hygienists of the United States of America, 10 a.m. - 12 noon.

San Diego will lecture for dental hygienists in the same building at 2 p.m. - 4 p.m.

Friday, Ladies Day

Other program items include discussion of the work of the American Dental Hygiene Association at 2:30 p.m., lecture by Dr. Jeanne C. F. Fairchild, assistant professor of the School of Dental Hygiene at the University, and a general business meeting at 8 p.m. in the cafeteria.

Foreign Students, Workers Must Report Now

All aliens who were in the United States on January 1, 1963, and who were United States Department of Justice to report their address before the end of the month, regardless of whether they have been legally admitted.
**San Jose SM Alumni Hear Of University's Development**

About 30 members of the San Jose Alumni Chapter of the University of the Pacific School of Medicine alumni association attended last week the 18 minute presentation on the subject, "Let's Look at 1964." according to the author, Pierre Laval, who was George Burton, Lenore Campbell, Milton Denmark, as Premier of France (Laval was "Man of the Year" in 1931).

**Questions about France**

Laval often said that he chose as his battle cry, "Death to Fascism," and gave the world a lesson, "If you don't seize your opportunity, you'll be caught by someone else." Hence, Mr. Cole's book, though biographical in nature, raises a host of philosophical questions.

For example, to what degree was the Third Republic of France a victim of its own lack of moral responsibility? Was she a typical Frenchman? Was she deceived and duped by her enemies? What was the role of John Dowling in the history of her defeat, for she did not have to suffer her enemies. Indeed, Mr. Cole's book, though biographical in nature, raises a host of philosophical questions.

**Summer Work for Students**

A summer work-study program in mental health is being offered by the Western Interstate Commission for Higher Education to any undergraduate or graduate student in any field of study in a western college or university.

The ten-week program, which will coexist with regular academic summer sessions, will be offered in California, Colorado, Washington and Wyoming colleges and universities. Participants will spend one week in intensive academic orientation at the colleges or universities before going to job assignments. The assignments will last eight weeks and take in mental health programs for the mentally ill, mentally retarded and delinquent.

During the eight weeks on the job, academic work will continue with reading assignments, tutorial conferences, seminars and study projects. Students will be assigned to work under the direct supervision of professionally trained individuals receiving approximately $560 for the eight weeks.

The tenth week will be spent on campus for additional academic work and evaluation of the work experience. College credit will be given and will be transferable to other western colleges and universities.

Cost to the student will include tuition, room and board, and transportation. Some scholarship assistance may be available from regional mental health associations.

For information or to write for application forms call or write University SCOPE, 796-0611, extension 283.

**Three Alumni of the School of Medicine were elected recently to head that San Luis Gonzale Sanitarium and Hospital. They are (l-r) Mervyn T. Purdy, chairman, Charles E. Strachan, chief of staff, and Henry L. Hadley, secretary.**

**Members of the Grand Jury of San Bernardino County and the county district attorney were guests of the University of the Pacific at Loma Linda.**

**Students Repair Mexican Church**

Forty-one students and teachers from Loma Linda Union Academy traveled recently to San Luis, Mexico, to renovate the Seventh-day Adventist church there.

**After returning to Loma Linda, it was decided that rath- er than exchanging Christmas gifts among themselves, the students would make contribu- tions toward repair of the church. Some students bought chil- dren's clothing and books, while others made materials that were purchased at cost. Food for the crew while they worked on the church was donated by various stores.**

**The work was performed under the direction of Conrad Thomas, sponsored of the associated student body and instructor in industrial arts, and Carl McKinstry, associated student body president.**

**A teacher who is attempting to teach without inspiring his pupils with a desire to learn, is hammering on cold iron.**
