Dr. Lemon Will Study Cancer
Incidence Among Adventists

A grant to study the incidence of cancer among Seventh-day Adventists has been made by the American Cancer Society to Frank R. Lemon, SMB9, associate professor and chairman of the University School of Medicine department of preventive medicine.

Dr. Lemon will center his investigation on 25,000 Californian Seventh-day Adventists. The question of incidence of various types of cancer among this group is of interest, states the cancer society, "because their religious beliefs lead them not to use tobacco and alcohol. Coffee, tea and meat products are used sparingly, if at all," comments the society administration.

Previous reports have indicated there is a significantly reduced total mortality in this group, particularly death from gastrointestinal disease, lung and colorectal cancer, notably of the entire respiratory tract, the urinary bladder, the stomach and cervix tissue.

However, recent analysis of data suggests there may be increased risk for cancers of the pancreas and liver and for leukemia as compared with the general population.

Dr. Lemon's work in the past and his present plans will be in collaboration with Dr. Theodore J. Curphey, MD, and Dr. Robert L. Cone, vice president of the Seventh-day Adventists.

Dr. Lemon will study the cancer incidence among Adventists in San Bernardino.

To Spring Council
In Washington, DC

Attending the Spring Council of the General Conference of Seventh-day Adventists April 14-16 in Washington, DC, will be Godfrey T. Anderson, University president, and Robert L. Cone, vice president for financial affairs.

Dr. Anderson will attend also the annual meeting of the American Cancer Society, May 11-12.

The council is conducted to transact business occurring between the annual fall councils.

Professor Attends
Washington, DC, Meeting

Theodore J. Curphey, MD, clinical professor of pathology, attended a meeting for the discussion of establishment of a national center for the study of sudden deaths in infants recently in Washington, D.C.

Dr. Curphey is also Los Angeles County's chief medical examiner and coroner.

The Spring Week of Devotion will begin on both campuses April 15 with C. L. Duffield, pastor of the Alhambra, California, Seventh-day Adventist Church, speaking in Los Angeles and James J. Cox, acting chairman of the department of religion at Columbia Union College, Washington, D.C., in Loma Linda.

Duffield will speak at services from 3:00 to 7:15 each morning Monday through Friday, except Wednesday when there will be no morning meeting. Evening services will be from 6:30 to 7:35 Monday through Thursday, and will begin at 7:30 Friday night.

His topics will be "God's Message for Modern Man", "Christ's Power Analyzed", "Can We Know God", "How Well Can We Know Him", "Bread or Freedom", "What Is Truth", "Why I Became a Seventh-day Adventist", "Our Love" and "Love or Perish."

In Loma Linda, meetings will begin each day at 8:15 a.m. and end at 5:30. Evening meetings will be from 6:30 to 9:15, except on Friday evening when the service will start at 7:30.

Dr. Cox will also speak for an 8:15 a.m. Sabbath service April 18 at the University Church. There will be no Sabbath school or 10:45 services that day because of an all-day connecting of the Southwestern California Conference of Seventh-day Adventists on the National Orange Show grounds in San Bernardino.

As the dominant theme for his messages for the week, Mr. Cox has chosen "Indicative and Impressive."

A graduate of Union College, Lincoln, Nebraska, Pastor Duffield will also speak at services from 3:00 to 7:15 each morning Monday through Friday, except Wednesday when there will be no morning meeting. Evening services will be from 6:30 to 8:00 Monday through Thursday, and will begin at 7:30 Friday night.

Under the new law the donor gets no contribution deduction "while he (or relatives of his) retains the right of possession for his life (or the life of others) the use or enjoyment of the property. He recovers a contribution deduction at the time of the gift of future interest for the present discounted value of that interest," states the Internal Revenue Service.

Contributions to the cause of Loma Linda University may yet entice the gift of their gifts and keep it, if they act before July 1, 1964. A contribution deduction will be allowed for transfers of tangible personal property made before that date.

This means, according to Dr. Ordell Callins of the University Corporation office, that donors may accomplish three things if they desire to make a donation before July 1. (1) They will help the University by their gifts. (2) They may enjoy the use of their contributions as long as they wish. (3) They will benefit from the tax deduction that is presently allowed for gifts to a charity such as Loma Linda University.

Mr. Callins stated that the University would be interested in books, equipment and other tangible personal property (art collections, to mention one group). The gifts must have future interest for the University. Those interested in studying arrangement of this kind should contact Godfrey T. Anderson, University president, or the development department.

"A donor may still give property to a charity retaining either for his life (or the life of others) the use or enjoyment of the property. He recovers a contribution deduction at the time of the gift of future interest for the present discounted value of that interest," states the Internal Revenue Service.

Field Day Culminates With Nearly Clean Sweep for Loma Linda Teams

Loma Linda campus students nearly made a clean sweep in last Sunday's annual Field Day activities but lost six-man volleyball games and a softball game, the climax event, to students from the Los Angeles campus.

When all points were totaled the Loma Linda campus registered 1650 to 400 for the Los Angeles campus.

Los Angeles, with the scores already tipped against them because of the preponderance of students on the Loma Linda campus, managed a 2-2 win in softball with Donald B. Brown, SM'66, pitcher; and Robert M. Irwin, SM'67, catcher.

In two-man volleyball games Denmark and Beeve defeated Butts and Walther, and Kenneth T. F. Ing, SM'66, and Jan A. Cutting, SM'67, defeated Andrew S. Bookold, SM'67, and Biets.

Each campus took a victory in two-man volleyball games to win the Los Angeles team included: C. Don, 600, pitcher; Lynn F. Greenley, SM'67; James E. Crosby, SM'67; Wes, Guy, Swammer and Rouhe.

In table tennis doubles Swenson and Gregorius defeated Bond and Hodgekin. It was Ing and Donald C. Tan, SM'67, over Ribeaux and Honaker.

Students at Loma Linda took all tennis and table tennis events.

In singlesingles Crane defeated Irwin, and Brown defeated Hodgekin.

In doubles it was Crane and F. Karl Gregorius, SM'67, over Hodgekin and Carter Richard, SM'67, and Brown and F. Karl Streek, SM'66 over Bond and Samuel M. Chen, SM'67.

Playing at singles in table tennis, Grover, SM'67, defeated Beve and Crandell.

Playing at doubles in table tennis, Smith and Grover defeated Vroman and Wilson, SM'67.

In tennis, Crane defeated Hodgekin, and Gregorius defeated Vroman and Wilson.

In tennis singles Crane defeated Irwin, and Brown defeated Hodgekin.

In tennis doubles it was Crane and F. Karl Gregorius, SM'67, over Hodgekin and Carter Richard, SM'67, and Brown and F. Karl Streek, SM'66 over Bond and Samuel M. Chen, SM'67.

A group of students from the University School of Medicine last week tested Bakersfield Medical Clinic, an alumni-operated institution, and spent the Sabbath with the physicians of that clinic.

The tour, which has become a semi-annual event, began six years ago, according to Frank A. Morton, associate professor of religion in the University Division of Religion, who said the Bakersfield clinic is the only institution of its kind that so far has been organizing a program for medical students.

Representing the University Division of Religion was Dalton D. Baldwin, instructor.

Addressing the students in a Friday afternoon session was Marion C. Barnard, SM'54-A. He explained the organization of the clinic, which has four physicians, each with four examination rooms.

Dr. Barnard told about the threefold aim of the clinic, stating that the work is based on healing of man's physical, mental and spiritual ailments. No one in the clinic—physician, nurse, patient, or clergy—will ever forget that the doctor pointed out. It is a requirement, therefore, that every staff member lives in accordance with Christian standards.

Bible Class, Cooking Too

Many of the patients came to our Bible classes or took part in our nutrition classes, said Dr. Barnard, who has recently returned from a trip to New Guinea where he was honored by the University Division of Public Health and Tropical Medicine program.

A recent class in nutrition for those who must change their eating habits attracted 100 patients in Dr. Barnard's home, where Mr. Morton, who had served wholesome vegetarian food and explained the consequence as well as the preparation of it.

The students, who are members of the University Medical Evangelism Seminar, also had time to visit with Dr. and Mrs. Barnard in their home and enjoy the vegetarian fare which they serve their patients during the nutrition classes. They were also guests of Dr. and Mrs. John W. Kizziar, SM'54-A, radiologist of the clinic, who also works for Loma Linda University Hospital.

Discussions and tours during the two-day sessions covered problems of church and community association and public relations. It was pointed out that a new physician to a church or community must be careful and tactful in introducing his services and financial aid. He can be of much greater assistance if he considers all angles in human behavior.

James F. Barnard, SM'56, a twin brother of Dr. Marion, also participated in the tours throughout the Sabbath. The family, which includes Waysne A. Penderson, SM'54-A.

Dr. Kent Presents Keynote Address

Dorsey R. Kent, PhD, assistant professor of psychology in the Graduate School, presented a talk as the keynote for a group of dental hygienists receiving diplomas from the American Association of Dental Schools in Los Angeles.

The title of Dr. Kent's talk was "Pro-Fressional: Interpersonal Relationships in a Defense-Oriented World.

Also attending the association were six faculty members from the School of Dentistry.

Dr. Kent also will present a paper in September at a meeting of the American Psychological Association. It is one of many papers he has written on the various fields of stress in male adolescent stutterers.

A MEETING IN Dr. Barnard's home, Bakersfield, discussed problems that alumni physicians meet when they seek to establish a practice and do some mission work. Dr. Barnard is seen in the center, while Dr. Kizziar is listening at the extreme right. (See story.)—Staff photo.

The discussion was informal at times.—Staff photo.

CHURCH CALENDAR

Friday, April 3

LINDA HALL — Annual youth assembly.

4 p.m. to 7:30 p.m.

UNIVERSITY CHURCH — No meeting.

Saturday, April 4

HILL CHURCH — Hour of worship. John Gibbey, president of the South Dakota Conference of Brethren.

10 a.m. and 11 a.m.

Also attending the association were six faculty members from the School of Dentistry. Dr. Kent also will present a paper in September at a meeting of the American Psychological Association. It is one of many papers he has written on the various fields of stress in male adolescent stutterers.

Dr. KEVIN TAYLOR teaches a Sabbath school class. Both Bakersfield Medical Clinic employed several alumni as teachers and church officers.—Staff photo.

University SCOPE, page 3
The University Trustees Promote, Appoint Faculty Members, Effective Immediately

Pettis Honored

The University Trustees Appointed in the Graduate School, Paul J. McMillan, PhD., assistant professor of anatomy, already effective.

Library Staff

A library appointment was given to John E. Winterhalter, librarian of Vernon Raddcliffe Memorial Library, effective January, effective April 1, 1964.

School of N&D

In the School of Nutrition and Dietetics, Dr. John W. Braley, chairman, announced that Alphonse A. Keller, assistant to professor of surgery, effective immediately.

Div. of Religion

The committee of Religion John M. Reeves was appointed instructor in religion, effective immediately.

ND Alumni Set April 26

For Homecoming Banquet

Nurses Class '60 Meets for Reunion

A reunion of the School of Nursing Alumnae Class of '60 Students and their families was held March 21 at the home of Mrs. George F. Page, SN'33.

Women Students Present History of Wedding Gowns

A lecture and showing gowns from past years to the present will be held April 8 in the Dining Hall of Kalindrome Club, Loma Linda campus. This is being arranged by the organization, recently in a program organized and narrated by Mrs. B. L. Camp.

School of Medicine

New appointments in the School of Medicine were: Minoru Hirayama, MD, research associate in pathology, already effective; Maurice Kodlin, MD, associate professor of ophthalmology, immediate; Noriko S. Smee, MD, instructor in orthopedic surgery, effective March 1, 1964.

Peter M. Lewis, MD, instructor in pathology, effective immediately; M. Ray Rogers, MD, instructor in surgery, effective March 1, 1964; Robert 0. Sloan, MD, instructor in urology, effective immediately, Loma Linda.

School of Nursing

In the School of Nursing the Trustees appointed JoAnn Johnson, MS, RN, instructor in public health nursing, effective July 1, 1964; Sylvia Sturdvant, MSN, RN, instructor in obstetrics, effective immediately; Gladys Torres, MSN, RN, instructor in obstetrics, effective July 1, 1964.

A promotion was given Clarice W. Woodward, MS, RN, from instructor to assistant professor of mother and infant nursing, effective immediately.

School of Education

Continued from page 1

FAYETTEVILLE, AR: The Alumni Association of the University College, at a meeting last week approved promotions as follows: Karl H. Hoff, MD, from instructor to assistant professor of obstetrics, effective July 1, 1964; Dr. E. E. Engen, Dean, from instructor to assistant professor of pediatrics, effective July 1, 1964; Jesse Hayden Jr., PhD, from instructor to assistant professor of anthropology, effective July 1, 1964; Paul J. Mckinlin, PhD, from instructor to assistant professor of psychology, effective July 1, 1964; Robert L. Schultz, PhD, from formerly on leave of absence to associate professor of anatomy, effective August 1, 1964.

It was further observed that the television industry has it's best possible light, " good medicine," says Dr. Eugene Hoffman, a member of the television producers, notably to the American Medical Association.

As a result, "television and motion pictures have a great potential value in public relations counseling to the medical profession," says Dr. Hoffman. It was further observed that the television industry has it's best possible light, " good medicine," says Dr. Eugene Hoffman, a member of the television producers, notably to the American Medical Association.

As a result, "television and motion pictures have a great potential value in public relations counseling to the medical profession," says Dr. Hoffman.
