Mary Harren To Be New Assistant Dean

New assistant dean at Ida Anderson Hall in Los Angeles is Mary F. Hamren. She comes from El Cajon, a little over a mile from Loma Linda. She has lived in El Cajon since 1961. A year ago they moved to the seventh-floor apartment of Loma Linda Home in Ida Thomason Hall. Mrs. Hamren has made her home in Ida Thomason Hall since 1961.

Local Businessman Heads Fund Drive

The Arrowhead United Fund drive in the business community of Loma Linda will be headed by Alexander A. Brown, manager of the Loma Linda department of Security National Bank. Mr. Brown is a graduate of the University of California, Los Angeles. He has been a member of the business community for 10 years and has been active in the Arrowhead United Fund Drive for the past four years.

In commenting on his new role, Mr. Brown said, "The strengthening of the economy of the business community is a necessity for the future of the region. We must continue to work together to improve the quality of life in our community." He added that the funds raised by the drive will be used for community programs and services.

Dietetic Students, Faculty Members

Partake in Meetings

Students and faculty members of the Department of Nutrition and Dietetics attended a recent meeting of the American Dietetic Association in Portland, Oregon, where three members of the department were presented with awards. The meeting was held in conjunction with the Portland meeting of the American Public Health Association.

An AUP breakfast meeting of the University administration and department heads was held in the Classroom Building. The meeting was attended by Provost John Z. Vynne, Mr. Z. Bryan, and Mrs. Hamren.

Dr. Hadley Returns to University Post From Afghanistan

Dr. Charles Hadley announced this week that G. Gordon Hadley, MD, assistant dean for international students, has just returned from Afghanistan. Dr. Hadley served as a member of the faculty of the University of Kabul for three years. His teaching activities in pathology at the University of Kabul were sponsored by the World Health Organization.

Dr. Hadley is a graduate of the School of Medicine in the Class of 1944 and completed residency training in pathology at the University of California. He is an associate professor of pathology and has been a member of the School of Medicine for more than two years. He also was visiting professor of pathology for three years at the Christian Medical College, Vellore, India.

Dr. Hadley may be reached at his office in the Graduate School building, extension 587. He said that he will be available every Monday for students on the Los Angeles campus. Professor Hadley may be reached in Los Angeles by calling extension 587.

In addition to his work in medical affairs, Dr. Hadley will actively be involved in the department of pathology. He said that he will "take care of the people." Other members of the department who will be involved in the drive will be Walter and Bonita, back to the area this week. Mr. H. Shaw, MD, dean of the school.

Patients Honor Hospital Staff

Two Loma Linda University Hospital patients from Las Vegas, Nevada, recently honored hospital employees with an ice cream party upon their release. The former patients, Mr. and Mrs. Frank English, served nearly 180 members of the staff a choice of flavors for the care given them as patients.

"The hospital staff wishes to thank Mr. and Mrs. English for their thoughtfulness," says an employee.

Speech Students Close Summer Term

Students in speech and hearing disorders closed the summer term recently with an ice cream social at the home of Dr. and Mrs. Kenneth F. Lutz, 25441 Old Street. Dr. Lutz is assistant professor of speech pathology.

Also attending were E. Evelyn Brit, SoD, instructor in otolaryngology, and Edward W. Ewert, PhD, Rosdandi audiology who taught a summer class at the University in hearing measurement and testing.

Activities of the evening ranged from sandcastle play for the toddlers to a turn at the home's ice cream freezer for adults.

Forty-eight persons attended, including students, families, faculty and the speech clinic staff.

Benghazi Hospital Needs Dental Tools

A need for dental equipment and supplies at the Seventh Adventist Benghazi Hospital, Libya, has been reported by Arthur A. Ewert, DDS.

Dr. Ewert will leave for the hospital on August 15. He is hoping that the hospital staff may want to acquire some new tools to help them expand the hospital's services.

It may be reached at 2220 Rosemore Drive, Rancho Cucamonga, California. His address is GLZ-2-214, area code 916.
In Support of United Fund
By GODFREY T. ANDERSON
Loma Linda University President

In these days of shrinking liberties one is apt to resist any encroachment on either his time or his pocketbook. Because of this, some have looked upon the Arrowhead United Fund Campaign as a threat to personal freedom.

Actually, this voluntary way of meeting community needs is the free way. State and national governments appear willing to perform services now provided by fifty-two voluntary agencies. If our agencies fail, government agencies will do the job—and send us the bill through higher taxes.

Health, welfare, and social agencies in this area utilize the Arrowhead United Fund so often as to do a better job than many government agencies, who, incidentally, employ no health specialists.

So, the voluntary way is the free way and surely the proper way. Meeting valid human need will survive only if everyone gives it support.

Recognizing the vital role of the area's volunteer agencies, the Arrowhead United Fund set up this year a ten thousand dollar head Fund to full support by participating in the AUF Program of Excellence. This program, adopted by a majority of the finest firms and institutions in the community, calls for AUF promotion through organizational lines.

The campaign, scheduled to begin September 1, will close early October 4, before the first general report meeting. We will thus show in an unmistakable way our genuine interest in the community's welfare.

For a Rusty Physique . . .

By CARROL J. MILLS

Thirty minutes a day can make you, University employee, an expert at the "grasp," the "grind" and the "grate!" What's more, you will also master in the same period of time such enigmatic skills as the "crouch," "pluck," "roll," "crouch," plus the "wave" and the "wing.

What good will it do, you ask. Well, there are no ascending claims or promises, but predictability at the above-mentioned skills will make you feel more vigorous both physically and mentally.

Now that skeptical look off your face and hear this: This is what that's right—it costs you nothing.

Oh, but there is one incentive. If you are able to do the exercises at 7:45 a.m., which many of you will have to judge on these last long stitches before you roll out in bed of the morning.

In case the meaning of all this has escaped the less keenly observant, let me try to explain a bit further:

In their research Dr. Kinzer and his students have developed an exercise program based on the new technique recently developed at the School of Dentistry here two years ago. The program is particularly utilized by the process, Dental Laboratory, because of tendencies to brittleness in porcelain to other areas of the mouth where porcelain does not erode out. 3. Porcelain does not change color. 3. Porcelain does not erode out.

A special provision to vote in the presidential election has been made for residents of the Los Angeles campus at 745 West Fourth Street, San Ber-

As the deadline nears, deport registrars will be located in public places for the convenience of voters.

All those for whom it will be necessary to vote absentee are urged to contact the registrar in San Bernardino as soon as possible.

PT Interns Have Practical Picnic

June graduates of the School of Physical Therapy who are serving internships in the Los Angeles area shared experiences recently when they gathered at Leimert Park. Each physical therapy student is required to serve a 20-week internship. The summer column is one of two academic years required of the student for completion of the professional preparation. A required internship is for professional preparation.

Births

HANCOCK, Tracey Brent born to Shere and Richie D., SMVT, July 26.

SANDROEN, Michael Todd born to Darlene and William D., SMIFS, August 2.

MCCLELLAN, Dale Keith born to Esther and Edward S., assistant professor, August 4.

WILLSON, Jesslyn born to Lavanda and Lynne E., SM, August 6.

Employees Tour Europe by Car

Two university committees recently returned from a five- week tour of Europe, via ten-wagon through Europe. Eagle, Beryl K., Schilling, who is employed in the office of the dean of students, and Marcia J. Goring, a secretary in the Division of Religion, left from New York, where they spent a day at the World's Fair, on July 1.

From Lucerne, where their plane landed after a stop in Frankfurt, Germany, they visited Miss Myres Stephenson. In Lucerne, they visited Miss Myres Stephenson, a former University employee. She now is working at the Seventh-day Adventist home for the aged. In the Seventy-seventh Adventist service’s center, but plans to return in November to her original position in the registrar’s office. In Basel, Switzerland, where they stayed a day at the World’s Fair, they visited Miss Myres Stephenson, a former University employee. She now is working at the Seventy-seventh Adventist service’s center, but plans to return in November to her original position in the registrar’s office. In Hamburg, Germany, Miss Schilling purchased her Volkswagen. From there she and her husband, Richard M., visited Amsterdam and a medium-size clinic group immediately opened a 200-bed hospital. Certified diagnostic radiologist: Weyburn, Saskatchewan.

Physicians, Specialists

PEDIATRICIAN: Arlington, California. Reported to be team physician for the new Laguna Medical Center.

RADIOLOGIST: Weyburn, Saskatchewan. Certified radiologist associated with two LLU graduates.

RADIOLOGIST: Normandie, California. Certified diagnostic radiologist at Normandie Medical Center.

INTERNIST: Lancaster, California. Certified internist. Experienced in small hospital setting.

INTERNIST: Blythe, California. Six months in general practice and one year in Family practice.

PEDIATRICIAN: Blythe, California. Six months in general practice. 2. Wish opening in small hospital in northern California. 3. Wish opening in establishment in the Los Angeles area.

Physicians, General Practice

INTERNIST: Riviera Beach, Florida. Seasonal opening during winter months.

REISWIG, Reome Brent born to Shere and Jerome D., SMIFS, August 14.

Physicians, Specialists

PEDIATRICIAN: Arlington, California. Reported to be team physician for the new Laguna Medical Center.

RADIOLOGIST: Weyburn, Saskatchewan. Certified radiologist associated with two LLU graduates.

RADIOLOGIST: Normandie, California. Certified diagnostic radiologist at Normandie Medical Center.

INTERNIST: Lancaster, California. Certified internist. Experienced in small hospital setting.

GKVVL: Four months in general practice. 1. Wish opening anywhere in California.

Physicians, General Practice

PEDIATRICIAN: Winnipesaukee, New Hampshire. 6 months in general practice. 2. Wish opening east of Winnipesaukee, New Hampshire.

PEDIATRICIAN: Blythe, California. Six months in general practice. 2. Wish opening in small hospital in northern California. 3. Wish opening in establishment in the Los Angeles area.
