W. R. Beach to Review Church's Health Work

The Outreach of the Church's Health Emphasis is the title of Walter R. Beach's address Wednesday, April 28, in a special convocation designated as the April event commemorating the sixtieth anniversary of the founding of Loma Linda University. The program will be the climax of the sixtieth anniversary celebration of Loma Linda University.

Mr. Beach is secretary of the General Conference Women's Missionary Union, a member of the University's Board of Trustees.

Mr. Beach received his BA degree in 1950 from Walla Walla College, Washington. The Sorbonne in Paris granted him the Master of Arts degree in 1951. His alma mater awarded him an honorary Doctor of Laws degree in 1954.

His most recently published books are Light from God's Mercy (1960) and Dimensions in Salvation (1963). He and his wife, the former Gledys John Corley, are the parents of three married children.

The program will be the fourth in a series of sixtieth anniversary celebrations. Next month on Founder's Day, May 6, the late Dr. Walter R. Beach, the Review and Herald, will be the speaker.

Other anniversary events have featured Dr. Paul Throsby (January), the State University of the President Godfrey T. Anderson (February), and the Medical Missionary Convention (March). The series will end with a gala anniversary day and graduation banquet on June.

Women's Club Votes Medical Center Fund

The Business and Professional Women's Club of Loma Linda recently voted to furnish a patient's room in the new medical center building. The donor of the gift, which will be used for the dental teaching film "The Crane," is Dr. William R. Beach.
"Cigarette smoking is causally related to lung cancer," said the Surgeon General in his report, "which was issued in January, 1964. Furthermore "it is . . . more prudent to assume that the smoker in the United States last year, according to statistics of the Department of Agriculture. Although this figure is about 20% lower than that used by the Surgeon General, it is estimated that cigarette smoking is hazardous to health. This proposal, though perhaps too mild, is worthy of support.

Furthermore, "it is . . . more prudent to assume that the smoker in the United States last year, according to statistics of the Department of Agriculture. Although this figure is about 20% lower than that used by the Surgeon General, it is estimated that cigarette smoking is hazardous to health. This proposal, though perhaps too mild, is worthy of support.

Dr. George J. Nelson, formerly associated with the Argonauts Club of San Bernardino and the United Cerebral Palsy Association of San Bernardino, has been appointed associate professor of chemistry. He will join the department of chemistry in the Graduate School on a full-time basis effective July 1. Dr. Nelson is the chairman of the department.

The Federal Trade Commission plans to require that the packages state that cigarette smoking is hazardous to health. This proposal, though perhaps too mild, is worthy of support.
