Faculty Preparing for Retreat Oct. 1-3 at Pine Springs Ranch

Today, September 24, is the deadline for reservations for the Pine Springs Ranch retreat for dental faculty members to be held October 1 and 2. Reservations should be made with the University Relations office, according to Robert E. Cleveland, PhD, vice-president for academic affairs and chairman of the retreat planning committee.

FLORIDA DR. Hayden, professor of dental medicine at Loma Linda University and a former dean of the School of Dentistry at the University of California, San Francisco, is scheduled to speak on the theme of "The backdrop to classes" trek of October 1 and 2. Dr. Hayden, who served as a dental surgeon during World War II and is currently professor of dental medicine at the University of California School of Dentistry, will introduce the topic of Bruce W. Branson, DDS, professor of oral surgery at Loma Linda University School of Dentistry, who will discuss the topic of "The innervation of the mental nerve of the maxillary first permanent and second incisors" on October 3.

LLU Enrollment Edges Up; 1065 Already Registered

Enrollment at Loma Linda University is showing a slight increase over last year's figures. With 1065 students registered by this date (October 5), this is an increase of 50 over last year, with the roll not yet complete. Loma Linda University President Godfrey T. Anderson and Robert E. Cleveland, PhD, vice-president for academic affairs, announced that approximately 30 additional students will register before the end of the week, which would bring the total roll for the school to 1056. Last year's total on October 5 was 1067 students.

New Trends, Events Reported As Students Trek Back To Class

The "back to classes" trek has begun. Students of Loma Linda University are now at work in some 17 professional and scholarly fields. Field instructors may gain a capsule-size, yet personalized view of current trends and events in some of these areas through the following brief reports on departments and divisions of the University. The reports will also be available at the University Information Center.

Graduate School

J. Paul Stauffer, PhD, dean of the Graduate School, expects to see several persons receive their Doctor of Philosophy degress here this year, in addition to a strong representation of graduates at the Master of Arts level. Last year, he said, the school conferred nearly 50 Master of Arts degrees.

Week of Prayer

Students take part in the first week of prayer, which will be meeting this month to study and make proposals concerning graduate programs on the west coast, he added.

General Studies

As the director also of the Division of General Studies, Dr. Stauffer said that a growing number of courses are available for inter-school use. This makes it possible, he stated, for the professional schools to have a larger scope of electives, which makes for a wider enrichment of their programs.

Division of Religion

A. Graham Maxwell, PhD, director of the Division of Religion, is enthusiastic about the evening class offerings of the University. He said that many of the classes offered this year will be meeting this month.
Walter B. Clark
To Tour Colleges
Loma Linda University Di
rector of Development, Dr.
Walter Clark leaves September 27 for a tour of insti
tutions of higher learning.
He will interview all students
interested in attending Loma
Linda University in any school or
campus, with the emphasis
on those students who will be
applying for entrance in 1966.
The tour will include Union
College, Andrews University,
Atlantic Union College, COLUMBIA,
Union College, Southern Missa
ny College, and Southwestern Uni
versity College.

NEW STEINWAY CONCERT GRAND PIANO in Burden Hall is
inspected by Patrick H. Hicks (left), instructor in music; and
Charles E. Winter, PhD, professor of microbiology and chair
of the social activities committee.

Music Courses; A New Steinway
Enrich LLU Cultural Program

Music, both taught by Mr. Hicks.
A substantial addition to the
library of Loma Linda University
was achieved last week, as the
purchase of a new, nine-foot Steinway
concert grand piano—the "king of pianos," according to Mr. Hicks.
M. Hicks was supported by a
number of area individuals in a
bidding campaign, matching funds
taken by the University, in or
der to secure the instrument.
Those contributing were:
Mr. and Mrs. Melvin Bergvall,
Dr. and Mrs. Bruce W. Balto
der, Dr. and Mrs. Allen L. Bar
toli, Dr. and Mrs. Bruno W. Bramson, Dr. and Mrs. E. B. Buck, Dr. and Mrs. Bernard C. F. Pyle, Dr. and Mrs. Howard W. Conley, Dr. and Mrs. Albert E. Hirt, Dr. and Mrs. Charles R. MacDonald, and Mr. and Mrs. Glenn W. Em
dorfer.

The book sparkles with chapter

**Tennis Ladder for Students, Faculty**

Tennis players are invited to participate in a tennis ladder sponsored by the sophomore class of the School of Dentistry, according to Franklin H. Ordheide. The tennis ladder, open to all University students and faculty, is designed to provide a variety of challenging matches and new personalities. Added this year will be playoffs scheduled for April. Sign up sheets will be in Daniells Hall and the registrar’s office. Rules are posted in the box at the tennis courts.

**Hospital Sponsors Pharmaceutical Fair**

The second biannual pharmaceutical fair sponsored by Loma Linda University Hospital was held Tuesday evening, September 21, at Linda Hall. Forty exhibitors representing as many pharmaceutical companies set up displays and made samples of their most recent products available to physicians. Purposes of the fair, according to assistant hospital administrator Richard G. Ubbink, are to acquaint attendants with the most recent developments in pharmacueticals.

**HOSPITAL STAFF** poses with Ken and Linda Smith, standing in front of Linda Hall.
MEMBERS OF THE PRESIDENT'S COMMITTEE and related administrative staff met at Rup- per's Hidden Valley Ranch, September 9, for a social gathering. A pot-luck supper and "travelogs" by Charles Smith, DDS, dean of the School of Dentistry; and Thomas Little, PhD, emeritus dean of the Graduate School, both of whom returned recently from overseas trips.

Dr. Godfrey T. Anderson
Re-elected to World Affairs

Godfrey T. Anderson, PhD, president of Loma Linda University, has been named president of the World Affairs Council of Inland Southern California for the second year.

The council was organized last year by the eight institutions of higher education in the Inland area. Policy of the organization is established by a board of directors composed of the presidents of these colleges and universities or their representatives, and well-known citizens of communities in the area.

Purpose of the council is to provide an avenue for the study and discussion of matters of international importance. The purpose is carried out through a series of programs presenting speakers on current topics of foreign policy and international affairs.

Loma Linda University was first named Loma Linda College-of Evangelists (1906) and three years later became College of Medical Evangelists.

Heart Assn. Donates Funds For Improved Pacemaker

More than 5,000 patients suffering from "heart block" have had electronic pacemaker devices surgically implanted in their bodies since the procedure was introduced about seven years ago.

These artificial pacemakers maintain the vital spark that keeps hearts beating. But their delicate electronic circuitry is subject to damage or malfunction if exposed to large amounts of electrical energy.

"About five to ten per cent of patients with artificial pacemakers can be expected to develop abnormal heart rhythms that may require treatment with an electrical defibrillator," a research investigator told newsmen this morning (Tuesday). "The defibrillators use high levels of electrical energy to correct heart rhythms — often 7,000 to 12,000 volts..." This is more than enough electricity to seriously affect pacemaker devices from shock damage even in patients who require electrical defibrillatory treatment, he said.

OPPORTUNITIES
Excellent opportunities in British Columbia for physicians and dentists. Conference eager to as-sist. Kindly contact medical secretary, Bonbon Mathio, MD, Box 16, Mission City, BC, Canada.

Office for Rent
Medical office in modern air conditioned office in heart of Pasadena with plenty of parking, Close to hos- pitals. Practice goes with office. Robert A. Farrier, MD, 133 South Hudson, Pas- sadena, CA 91106.

New Linear Accelerator Explores Biophysical Effects of Radiation

“...It’s like a surfer riding a wave,” said Ivan R. Nelms, PhD, describing the movement of electrons in a linear accelerator to a pair of students. “The linear accelerator uses microwaves, amplified to a million watts, as the energy source,” he explained. “Electrons are accelerated to greater and greater speeds, as they coast ‘down’ an electric potential hill.”

However, they don’t run out of hill, as a steeper inevitably would. Dr. Nelms continued, because the microwave ‘hill’ increases speed with the electrons, just as a wave moves with the surfer and prevents him from running out of wave.

“The accelerated electrons increase in mass 12 times before they are shot in a six-million-electron-volt beam from the accelerator,” he emphasized. Dr. Nelms is professor of physics and biophysics in the School of Medicine.

Radiation Research

The linear accelerator is in the Radiobiology Laboratory which involves the general area of radiation research, with particular attention given presently to the biophysical changes caused by exposure to radiation at the cellular level. “Right now, we are working with pure organic liquids, such as cyanohydrin, at room temperature,” Dr. Nelms said. “Plasmas are being led for moving to aqueous solutions, then to living systems.”

In most previous radiation research, scientists irradiated the sample, then afterward tried to determine the process of change by studying what was left. There is increasing evidence, however, that short-lived intermediates called transient free radicals are of prime importance in a variety of biochemical processes.

“That’s why we emphasize the study of free radicals in our research,” Dr. Nelms observed. “But before we could begin to study them we had to solve several problems in research, methods and equipment.”

To produce transient free radicals in amounts large enough to study, a radiation source producing short bursts of many active particles must be developed. “Our present linear accelerator was the result of this problem,” Dr. Nelms said. “It emits accelerated electrons in microsecond (milli- gram of a second) pulses.

Electron paramagnetic resonance and infrared absorption spectroscopy are two analytical methods used to detect and measure the resultant transient free radicals.

Detection Problems

“We also had to solve problems in the methods of detection and measuring,” Dr. Nelms said. “The information you want is buried in noise, and the computers of average transients which works in milliseconds (thousands of a second), while the life of the transient species may be measured in microseconds (millionths of a second). So we have developed a fast computer of average transients which works in micro-seconds, and we are working on even more sophisticated computer discrimination techniques.”

“Obtaining infrared absorption spectroscopy, electron paramagnetic resonance and a fast computer of average transients—Continued on page 6

SM Class of ’68 Elects Officers

The School of Medicine Class of ’68 has chosen as officers for the 1965-66 school year: Wil- liam C. Bremner, president; Craig L. Gray, vice pres- ident; Anita L. Lenz, secretary-treasurer; Sarah M. Smith, as- sistant activities director; John D. Cowley, activities director; Donald L. Culver, sports director.

Ronald A. Hershey, educational director of the School of Physical Therapy, “In addition we have 38 seniors and 38 interns enrolled in the school.”

The director mentioned that the demand for physical ther- apists is acute. Although there are 44 schools of physical therapy in the United States, he said, positions are available for graduate physical therapists in every state in the Union, including many in denominational hospitals.

Six graduates of the school are now employed in foreign mission service, he indicated, and there are openings at Bangkok and Puerto Rico.

School of Dentistry

Charles T. Smith, DDS, dean of the School of Dentistry, who has just returned from an ex- tensive tour of the Orient, sees bright horizons of mission opportunities for dental school graduates of the future. “I personally have been traveling through 18 coun- tries and visiting with 14 of the 15 dentists at present in over- seas General Conference employ- ment has been a very enlight- ening experience,” he stated. “Eventually a significant num- ber from each graduating class could be absorbed by mission fields.”

Before long, he added, “filling these opportuni- ties for overseas assign- ments will become a real chal- lenge.”

In the “what’s new” depart- ment, he mentioned the school’s recent acquisition of teaching machines and the offer- ing of a new curriculum in dental assisting. In addition, he said that advanced dental students will now be able to acquire the necessary equipment donated for their laboratory by the class of ’65.

School of Nursing

“For the first time in our history all senior students in the School of Nursing will attend their classes on the Loma Linda campus this year,” stated Minnie Atteberry, dean of the school.

“In addition,” she said, “this senior class is a larger one than we have had for a number of years.”

“The main reason for this,” she continued, “is having had comparatively fewer drops from previous classes. For ex- ample, four students dropped out of last year’s class of 62 sopho- mores.”

Minnie Atteberry said that the increased enrollment had re- quired the addition of another Continued on page 6

Dietetics Interns receive Awards

The Loma Linda Food Company has presented its ninth annual fellowship awards, amounting this year to $1750, to five dietetic interns in the School of Nutrition and Dietetics.

Recipients of the awards, chosen by a joint committee from the school and the Company, include Shirley J. Brown, La Sierra College; Vyhmeister, associate professor; Shirley J. Brown, La Sierra College; and Patricia H. Black, La Sierra College.

A humorous skit of an “aver-
Robert Cleveland, Mrs. William Michals; public relations. Roy Jutzy; missions, Mrs. William M. Johnson, Jr.; president elect, Mrs. Robert Nutter; program chairman, Mrs. Robert Cleveland, Mrs. John Zumwalt, and Mrs. Thomas Zirkle. Mrs. William Taylor, presented two mission families the chapter will assist this year. Mrs. and Mr. Raymond J. Walsen, Second Vice President; Dr. and Mrs. Albert S. McPhee, Nampa Hospital; Dr. and Mrs. Robert Nutter, Virginia Hospital, Abilene, Abilene.

Serving as officers until next July 1 are: president, Mrs. Gilbert Johnson; president elect, Mrs. Robert Nutter; secretary, Mrs. Beulah Spanos; treasurer, Mrs. Margaret Zondlak and Mrs. Robert Nutter; director, Mrs. William Taylor and Mrs. Jack Kennedy; Recording Secretary, Mrs. Robert Cleveland, Mrs. Robert Myers; public relations, Mrs. Margaret Zondlak and Mrs. Robert Nutter; chairmen, Mrs. William Taylor and Mr. William Taylor, according to Edwinna M. Faye Duncan, administrative assistant to the staff as requested. Mrs. Margaret Zondlak was added to the radiation therapy department that will be used in student instruction.

Students in the Division of Public Health will obtain field experiences in Mexico during the school year according to William W. Dysinger, Director of Public Health, according to George L. Dysinger, acting director in the absence of Mr. Robert P. Dysinger, northern maternity aide, according to George L. Dysinger, acting director in the absence of Mr. Robert P. Dysinger, northern maternity aide.

Interest in overseas field work is on the increase," Mrs. D. May said. "Requests for qualified personnel to serve mission service are coming in faster than we can keep up with."

Also mentioned for participation in the Civil Defense-sponsored medical self-defense training program is an advanced first aid to be promoted by the Southern California Conference of Seventh-day Adventists; and the addition of two new staff members this year: Robert M. Little, assistant professor of public health who will head theloin and in the patients' teaching and curriculums in occupational therapy have reached the level of the finest facilities. The school's graduates, according to Dr. William Taylor, will have the potential of helping to make more efficient the use of the available space, she said.

"The advent of Medicare," she said, "will double median incomes in the next 25 years, and thus heighten the need for more qualified medical record administrators."

Our Laboratory is entering a new era; and the laboratory can be justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations, are we justified in urging others to merge their denominations."

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.

We are New. . . . But we are ready to serve YOU.
