Quick-Action Funder Proposed
For New Recreational Facilities

A project to get additional tennis courts in operation on campus immediately has been proposed by University officials.

Three of the former play courts located adjacent to the Audiovisual Service building on Stewart Street have been removed to make way for the gymnastics construc-

"We would like to build two good quality tennis courts right away. The pressurized courts are not being used because there aren't enough of them for the tennis team," said Roy V. Jutzy, MD, assistant professor of medicine and president of the Alumni Association.

"In the near future, we plan to construct two new tennis courts. We have already received $2,400 from the pressurized courts for this purpose."

The two courts, to be located directly north of the Audiovisual building, will cost $40,000, according to contractor's estimates. "If the students and their friends can raise only ten percent of this, or $4,000, immediately," Dean Woods explains, "we can have them going within a couple of weeks." From several sources, and in spite of pressing financial needs of the new Medical Center, he notes, the University has agreed to make $500 available for this "hurry-up" project.

Charles E. Wixter, PhD, a member of the Alumni Board, committee, says that he is in full support of the proposal, and adds that other game courts, primarily volleyball and basketball, will be set up inside the new gymnasium as soon as it is completed.

More Acceptances Listed
For Dentistry, Nursing, Others

One hundred twenty-eight acceptances to the School of Dentistry, School of Nursing, and the School of Health Related Professions were announced last week by Walter B. Clark, dean of admissions for the University. In each of these schools there will be a few more acceptances made at the end of the school year, the dean states.

SCHOOL OF DENTISTRY

Students who will enter the School of Dentistry next September, are: Ernest G. Ammons, Jr., Los Angeles; Graham U. Carey, Angelo; Donald A. Cheek, Springfield, Oregon; Paul L. Conner, Addie Absham, Ethiopia; Robert E. Crook, Cal-

William W. Dodge, Jl., Santa Moritz; David H. Freistand, Al-

homecoming June 1 in the date for the School of Nursing Alumni Association Homecoming. Keynote

speaker will be Daniel P. Romanos, SM'71, who is the founder of many alumni in mission stations around the world.

Place: Loma Linda University Dinning Hall.

Time: 6:30 p.m.

Cost: $1.00 for Alumni of 1942, the 50th and 50th, respectively, will be honored.

School of Medicine alumni -
Colliers' largest alumni group - held their 25th Alumni Postgraduate Convention in Las Vegas on March 14, 15, and 16.

A program of clinical pastoral education is well under way at the University of Minnesota.

This month concludes a 12-week, half-day-per-week orientation period for eight Protestant ministers and begins a three-month period of clinical pastoral training for four Catholic priests. These representatives of their kind offered preference for the new program here.

The clergy-students of the present class, composed of the seventh-day Adventists and a Lutheran, will spend much of their time in a one-day-a-week seminar in verbal study, in visiting patients, and in group therapy. They will visit the acutely ill, geriatric, surgical, and psychologic hospital patients. Hidden Valley will present lectures from the various departments pertaining to these fields; they will learn how best to work with them in behalf of the patient.

A program of four—a chaplain and an assistant—headed by Charles W. Teel, provide a reference staff with a wide background of experience. The Council for Clinical Training, of New York City, as an accrediting body, will have an on-hand committee this winter, in order to provide a maximum of involvement with a minimum of interference.

Many seminars today require at least one quarter of such clinical training before graduation. Others strongly recommend it.

Speaking of the American Medical Association's own Medicine and Religion program, milford O. Rosau, MD, president-elect, said, "The swift growth and universal acceptance of [the program] has proved it is fulfilling the national need to establish a dialogue between the physician and the clergy. It is one of the only programs in my experience which have been criticized." Clinical pastoral education provides the basis for this dialogue in an academic setting.

A most important program is meeting a definite need. It will continue to grow.

In the Spotlight: April 8

Loma Linda University will be in the spotlight of Sev- enth-day Adventist churches in the North American Di- vision on April 8. This date has been programmed by the General Conference for a general offering in behalf of the work in the church.

Here locally on that day, the University will send speakers to ten churches in nearby territory. Other dates have been arranged for five more. Since the Southeastern California Conference will have a one-day campaigning on that date, speakers will not be sent to most of its churches.

Participating in this special program in surrounding areas are 12 University personnel: Howard B. Wees, PhD, vice president for public relations and development; Charles T. Smith, DDS, dean of the School of Dentistry; Lester H. Lunds, MD, associate professor of pharma- cology; Paul W. Dyson, PhD, professor of anthropology; public health; Charles W. Teel, University Hospital chap- lain.

John W. Elick, assistant professor of anthropology; Fred H. Osbourn, assistant professor of applied theology; Charles C. Case, director of University relations; Walter B. Clark, dean of admissions; Norman J. Woods, dean of students; Harold E. Shult, instructor in public health; and Richard A. Schoefer, University relations assistant.

"Spot Prevention"

An animated color cartoon has been enlisted in the war to eradicate the scourge of measles from the United States this year.

The film, "Spot Prevention," produced by the United States Public Health Service, is slanted toward the young and the na- tion's targets of "Mr. Measles," children between three and seven, and their parents.

William H. Stewart, surgeon-general of the USPHS, has stated that "effective Measles vaccine this spring and spring could achieve virtual eradication of this childhood disease. "There is no excuse for needlessly prolonging the fight against this disease which for centuries has afflicted mankind and left man mentally retarded," he says.

Thus far some 15,000,000 children have been vacci- nated, but several million remain susceptible, and must be inoculated against it in the next few months in order to eradi- cate the disease.

We earnestly hope that the story book theme of "Spot Prevention" will be effective in showing parents and the young in the new vaccine immunity available for children, comes true in 1967, and ends his menace in the US forever.

The film is available from the USPHS Audiothe- nal Facility, National Communicable Disease Center, 1600 Clifton Road, Atlanta, Georgia 30333.
During a press conference, Edmund Overstreet, MD, professor and vice-chairman of the department of obstetrics and gynecology at University of California School of Medicine, San Francisco, discusses present sex education in California schools. Behind the table are (left to right) John Parrish, director of Public Information, Dr. Overstreet, and Masao Nakaimoto, MD, assistant clinical professor of gynecology and obstetrics.

A graphic display of mortality studies depicting a lower rate of Seventh-day Adventist deaths in comparison with the general population in California is reviewed by Paul W. Dysinger, MD, associate professor of public health, and a conventioner.

RALPH F. WADDELL, SM’36, was named “alumnus of the year” by his alumni peers at the convention. Dr. Waddell is presently world medical secretary of the Seventh-day Adventist church.

Recipient of the Alumni Association’s student achievement awards this year were (left to right) Morris P. Ballard, SM’68, William C. Patton, SM’69, and Gerald W. Marsa, SM’67. The award is cited for “distinction in the quest of excellence in scholarship, citizenship, and student affairs.”

Posing for photographers at the Alumni Postgraduate Convention banquet are John E. Affeldt, MD, associate professor of medicine, named an honored alumnus, and Ray V. Jusay, MD, assistant professor of medicine and newly elected Alumni Association president. Ira E. Bale, SM’32, missionary to Paraguay, was also named as honored alumnus in absentia.

Jusay, MD, assistant professor of medicine and newly elected Alumni Association president. Ira E. Bale, SM’32, missionary to Paraguay, was also named as honored alumnus in absentia.

Twenty-fifth year anniversary classes customarily make a gift to their school. Ellsworth E. Wardham, MD, professor of surgery, presents a $25,000 check from his class to David B. Himber, MD, dean of the School of Medicine. It was earmarked for a closed circuit television system to be installed in the new Medical Center.
**Foreign Fellowship**

**To Junior Student**

Junior medical student William K. Ashby has been awarded a $1,364 fellowship enabling him to continue his medical studies for future service in a foreign country and recently arrived. Dr. Ashby feels that foreign fellowship will help him to gain insight into the medical and social problems that will be encountered in the community. He is a second year student from the University of California at Los Angeles. He plans to use the fellowship to work at the Max Kline and Freid Clinic during the summer.

Billroth Sessions Draw 49 Doctors

Forty-nine physicians attended two sessions of the Theodor Billroth Course in Surgical Anatomy at the University of Southern California School of Medicine. The School of Medicine anatomy professor, George Vandeman, described the anatomy and physiology of the male and female reproductive systems.

Because of the large number of physicians who wished to enroll in the February 19-22 session, a second session was conducted February 28-32, according to Raymond F. Tatro, SMFA program chairman for the course. Lectures and cadaver demonstrations were held in the School of Medicine anatomy professor's laboratories. The second session was attended by 71 doctors.

PHILLIPS G. Pfeiffer, staff writer for the Public Information Office, models a typical dress from the Victorian era during a luncheon held at Arrowhead Springs Hotel near San Bernardino for the medical student's auxiliary. A representative from Goodwill Industries describes the various fashions from many different eras.

Mrs. Pfeiffer is the wife of Richard D. Pfeiffer, DDS, a graduate student in orthodontics.

Merry Christmas

To the Surviving Members of the Class of 1945:

May you be blessed with loving friends and family, much joy and health, and much success in all your endeavors.

Yours truly,

[Signature]

Sixty-Seven Tours, Lots More to Come

Sixty-seven tour groups, comprising over 2,000 people, have been conducted through the new Medical Center since January 1, 1967, according to Richard A. Schaefer, University relations director. These groups originated in a few of the aspects of the new University Medical Center to visit its facilities and tour the new center. They were headed in one of the new center's amphitheaters. Over 70 students from the Arizona school toured the University early this month.

David E. Horn, ’66, writes from New York City, that he is currently working as a physical therapist at the Hospital for Special Surgery in New York.

Linda R. Hall, Thursday, April 6, 1961

The Fifth semi-annual Pharmaceutical Fair will be held in Linda Hall on Thursday from 2 to 7:30 p.m. sponsored by the medical relations officer and coordinator of the fair.

Fifty pharmaceutical and drug companies will be displaying their products. Dr. M. Ubben states, “and we have been working very hard to get companies for this year for lack of space. This is a record for exhibitors and next year we will be able to accommodate all who wish to exhibit their products in the new gymnasium.”

Although the fair is primarily for the medical and dental profession, employees are invited to attend.

The Pharmaceutical Fair is sponsored by the University Hospital pharmacy.

No Tour April 6

The University tour of the new Clinical Center usually held on Thursday afternoons will be cancelled on April 6 due to the Pharmaceutical Fair.

That lady in the funny hat is "director of nursing"... he needs an ear, and she has a hair. And she just uses them, and not exactly enough. Always at least two, often more. Always defensive.

physicist - at the age of 24 this was a civic duty to care for the cardiac patient.
