An administrator reports on recent master plan sessions

by Howard B. Weeks, PhD
vice-president for public relations and development

Four master planning task forces have begun an extensive four-month project in which Loma Linda University programs and priorities will be outlined for the next five years, Reinhold R. Biets, chairman of the University Trustees, announced this week.

Emphasis will be placed on definition of University objectives within the purposes specified by the church, Mr. Biets indicates, with major attention to purpose, economy and effectiveness of organization and operation.

Each of the task forces includes at least 14 persons selected from various segments of the University Councils — and a specialist consultant.

In addition, task force chairs may invite others to present information and opinions to the group as a guide in planning.

Members of the University family who wish to express views or provide information are encouraged to contact the appropriate chairmen or administrators.

The planning council and its task forces, with their areas of studies and leadership are as follows:

The council: the "case" for Loma Linda University's master plan, governance, community services, facilities, Reinhold R. Biets, chairman; University President David J. Bieber, administrator.

Task force on academic programs: the academic program; Thomas J. Zweener, DDS, chairman; Lowell R. Raamussen, vice-chairman; Robert E. Cleveland, PhD, administrator.

Task force on organization: structure, management, personnel, planning, and financing; W. Paul Bradley, chairman; George B. Nelson, vice-chairman; Robert W. Radelfe, administrator.

Task force on student affairs: recruiting, admissions, student life; Charles E. Blinn, PhD, chairman; John W. Olson, vice-chairman; Tracy H. Teel, administrator.

Task force on public relations and development: communications, public relations, fund raising; W. Paul Mack, PhD, chairman; Ervin J. Reinholdt, vice-chairman; Howard B. Weeks, PhD, administrator.

Four months of project planning and preparation preceded the beginning of task force operation, including the development of extensive information about every major aspect of University organization and operation as a basis for study and project.

Task force members will make interim reports to the master planning council on March 10 and final reports on April 20.

The planning council then will present its recommendations to the University Trustees May 18.

MEMBERS OF TASK FORCE ONE, THE COMMITTEE ON ACADEMIC AFFAIRS and one of four task force groups set up by the Loma Linda University’s master planning council, is to discuss plans for academic programs at a meeting held last Monday. Members attending the session include N. Clifford Scoresen, superintendent of education for the Southern California Conference of Seventh-day Adventists; David B. Hinshaw, MD, dean of the School of Medicine; Wesley L. Untermeier, director of development; Lowell R. Raamussen, superintendent of education for the Pacific Union Conference of Seventh-day Adventists; Thomas J. Zweener, DDS, chairman of task force one, member of the University Trustees; and associate dean of the Medical College of Georgia, Augusta; J. Paul Staeuffer, PhD, dean of the Graduate School; Willard H. Masie, EdD, dean of the School of Education; Donald E. Lee, PhD, registrar; Wynelle J. Huff, associate dean for the baccalaureate program in the School of Nursing; and Fritz Guy, assistant professor of theology and philosophy.

Task force on academic programs:

Departmental seminars are scheduled by the College of Arts and Sciences.

Seven countries, "The Art of Life;" and "Politics and Government in the United States Congressman John V. Tunney of Riverside, announced candidate for the United States Senate from California, will help Loma Linda University begin its "Kaleidoscope’ 70" week February 16-22, scheduled as the highlight of the silver anniversary of the four-year baccalaureate program on the La Sierra campus of the University.

A class reunion is scheduled for the class of 1945, according to Thomas H. Elmore, associate director of development and Christian studies at Andrews University, Berrien Springs, Michigan, class president.

Other events scheduled during "Kaleidoscope’ 70" will include speakers S. I. Hayakawa, PhD, president of San Francisco State College; Irmin. Medgar Evers, widow of the late field secretary for the National Association for the Advancement of Colored People; James W. Symington, United States Congressman from Michigan; and Alonzo I. Baker, assistant professor of political science.

"The purpose of Kaleidoscope 70," according to Robert E. Lorenz, MD, alumni association president, "is to reunite as many members as possible of the class of 1945 for their silver anniversary, and to provide activities in which students, faculty, and alumni may become interested."

Tour tickets are still available for the Oberammergau play

More than 500,000 request for tickets to the world-famed Oberammergau Passion Play scheduled next summer in Germany have been turned down.

But Wilfred J. Airey, PhD, professor of history, has the answer to the dilemma of people who still would like to see this once-in-a-decade play.

Arrangements were made to include the Oberammergau play, a centuries-old dramatization of the last days in the life of Christ, as part of a 22-day conducted tour which Dr. Airey plans next June and July.

The Oberammergau stop is only a highlight of a tour through seven countries, "The Best of Northern Europe," which can be for $777. The price includes sleeping accommodations, three meals a day, the cost of guides, entrance fees, and all group expenses except passports, visas, inoculations, and personal purchases. An alternate, non-smoker group will take a 16-day tour for $666 which will also include seven countries, "The Best of Central Europe," but which will not include the event at Oberammergau.

College credit is available on the 23-day tour in both lower division (History of Western Civilization, 1500-1815) and upper division (The Reformation) courses, both of which carry three semester hours.

The tours are timed to commence just after the General Conference of Seventh-day Adventists session scheduled at Atlantic City, New Jersey, June 11 to 20, so that delegates to that session may join the tour directly in New York on June 21.

For additional information, contact Dr. Airey, Loma Linda University, Riverside, California 92505.

California history class will begin in February

A special four evening non-credit course designed to meet the State of California requirements in United States government will be taught by Robert R. Cleveland, PhD, vice president for academic affairs, beginning February 23.

It will meet in room 1A of Griggs Hall, Loma Linda campus, from 7 to 9 p.m. Classes are scheduled to meet February 23, March 2, 9, and 23. The final examination will be given March 30.

Registration for the class will be one half hour prior to the beginning of the first session. Charge for the four classes and examination is $20.

The textbook to be used is "By the Book," available at the University Book Store.

Further information is available at the Office of the Registrar on the Loma Linda campus.
Valentine's banquet Feb. 12

A semi-formal Valentine's banquet for Loma Linda campus students and faculty is scheduled for Thursday, February 12, at the Riviera Hotel in Palm Springs. Cost of the banquet is $4 per person which includes the meal and entertainment. The program, "Candelight and Roses," begins at 7:30 p.m.

Tickets, available at the Student Affairs Office and Daniels Hall, may be charged to student accounts.

Basketball began this week

Intramural basketball season began this week at Loma Linda University with those leagues making up the schedule. All games will be played in Gentry Gymnasium.

"A" League teams are the sophomores, junior, and senior medical students, a team from the Graduate School, and the senior dental students.

The "B" League consists of the freshmen, sophomore, and junior medical students, the freshman medical student association, and the school of education.

The "C" League is the campus, junior, and senior medical students, a team from the Graduate School, and the senior dental students.

All "A" League games are played on Wednesday nights, all "B" League games on Thursday nights, and "C" League on Monday nights. All games start at either 7 or 8:30 p.m.

Nixon lauds heart team's six-week mission to Greece

The Loma Linda University Heart Surgery Team returned recently from Greece to receive a warm welcome at the University. President Richard M. Nixon, in a small ceremony in his office, lauded the team for its efforts to perform open-heart surgery, and especially for their stay. The team included Dr. S. I. Hayakawa, professor of surgery, said the team was comprised of the techniques of open-heart surgery, and certainly for that reason, the team deserve to be commended. Dr. Hayakawa noted that the team was comprised of doctors, nurses, and surgeons from the University of California, Los Angeles, and the University of Southern California.

The group of 24 doctors, nurses, and surgeons consisted of physicians, dentists, and nurses, and was comprised of a team from the University of California, Los Angeles, and the University of Southern California.

The team was comprised of doctors, nurses, and surgeons from the University of California, Los Angeles, and the University of Southern California. The team consisted of doctors, nurses, and surgeons from the University of California, Los Angeles, and the University of Southern California.

HEART TEAM IN GREECE

C. JOAN COGGIN, MD, examines one of the more than 350 patients seen by the heart team. One third of the patients were under 15 years of age.

HEART-LUNG MACHINE TECHNICIAN Raymond M. Savage adjusts tubing on the machine prior to surgery.

THE LOMA LINDA UNIVERSITY TEAM operated on 31 patients during their six-week stay in Athens. Pictured (left to right) are Ellsworth E. Wareham, MD; Leonard L. Bailey, MD; Wilfred M. Huse, MD; and Constantine Linardos, MD.

EIGHT-YEAR-OLD SPIRO VAROUXIS listens to his heart with a stethoscope following open-heart surgery. Spiro, the "pet" of the team, was operated on for a hole in his heart.

DR. COGGIN AND DR. WAREHAM meet with the prime minister of Greece, George Papadopoulous, who commended the team on its work in Greece and invited the team back for a third visit.

LOMA LINDA UNIVERSITY HEART SURGERY TEAM members meet with President Richard N. Nixon in his White House office. Pictured (left to right) are Constantine Linardos, cardiovascular surgeon from New York City; Allen L. Breitf, MD, associate professor of anesthesiology; D. Larry Miller, SM70; Lawan W. Sutton, associate professor of nursing; congressman Jerry L. Pettis, 33rd Congressional district; Ellsworth E. Wareham, MD, professor of surgery; President Nixon; C. Joan Coggin, MD, assistant professor of medicine; Peter M. Kellis, pastor of the Westfield, New Jersey, Greek Orthodox Church; Wilfred M. Huse, MD, assistant professor of surgery; Roy V. Jutzy, MD, assistant professor of medicine; Ann J. Ekroth, operating room nurse; Richard W. Weismeyer, public information officer; Leonard L. Bailey, MD, intern at University Hospital.
American Dental Association president Harry R. Klenda, DDS, will be the keynote speaker at the tenth annual Loma Linda University Alumni-Student Convention scheduled for February 27 to March 2, 1970, on the campus of Dentistry.

Dr. Klenda, president of the American Dental Association, will address the convention on "Making Millie Modern," a theme that is expected to be of interest to the attendees.

The convention, which will take place at the Loma Linda University campus, will be dedicated to the memory of M. Larry Anderson, DDS, the first dean of the school of Dentistry. The convention will be a forum for the exchange of ideas and the discussion of current trends in the field of dentistry.

Other convention activities will include the annual student table clinic competition, which will be judged by a panel of leading dental experts. The competition will provide an opportunity for dental hygiene students to display their knowledge and skills in the field of dentistry.

The convention will also feature exhibits and a panel discussion on the importance of continuing education in the field of dentistry. The exhibits will highlight the latest advances in dental technology and the various specialties within the field.

The convention will conclude with a banquet and a keynote address by Dr. Klenda, who will discuss the future of dentistry and the role of the dentist in society.

The tenth annual Loma Linda University Alumni-Student Convention is expected to attract participants from all over the world, including dental professionals, dental hygiene students, and other interested individuals. The convention is a unique opportunity for attendees to network and learn about the latest developments in the field of dentistry.

The convention will be held at the Loma Linda University campus, with accommodations available at various hotels and motels in the area. Parking will be available on-site.

### Conference Highlights:
- **Keynote Address:** "Making Millie Modern" by Dr. Harry R. Klenda, DDS
- **Student Table Clinic Competition:** Judged by leading dental experts
- **Exhibits:** Latest advances in dental technology and specialties
- **Panel Discussion:** Importance of continuing education in dentistry
- **Banquet:** Hosted by the Loma Linda University Alumni Association

### Location:
Loma Linda University Campus

### Date:
February 27 to March 2, 1970

### Registration Details:
- **On-site Registration:** Available at the registration desk upon arrival.
- **Online Registration:** Available through the Loma Linda University Alumni Association website.

African UN ambassador will speak on both campuses

Davidson Nicol, MD, PhD, African educator, former university president, and now Sierra Leone's ambassador and head of his country's permanent mission to the United Nations, will be guest speaker at the first of a series of four lectures scheduled by Loma Linda University.

An ambassador

Nicol will give a public lecture in "The American Contribution to Africa in the 20th Century," Monday, February 9, at 8 p.m. in Belden Hall on the Loma Linda campus. Admission is free.

The visiting lectures program under which Dr. Nicol comes to the university was initiated in 1957 by the arts program of the University of Southern California to help students achieve economy in travel to be in residence for the second semester by E. Lee Becker, University controller.

Other classes available through extension education include Guidelines for Successful Parenthood, a course emphasizing premarital counseling, prenatal and postnatal care, and new-concept nutrition taught by Jack E. Kennedy, MD, assistant professor of gynecology and obstetrics; Unfolding the Revelation, a verse-by-verse study of the whole Bible; Fundamentals of Data Processing; Psychology II; Fundamentals of English I; Nutrition and Dietetics; Personal Attractiveness; Wilderness Camping and Survival; Health and Physical Education; Human Resources, Awareness, and Safety; Physical Fitness Education; Leadership IV and V; Medical Terminology; and Bacteriology.

Extension education courses announced for next semester

Managing Family Finance is the title of a course that will help students achieve economy in travel to be in residence for the second semester by E. Lee Becker, University controller.

Course description

The course will be offered at the Bakersfield campus of the university and at San Diego, Los Angeles, and Redlands. Boulevard

The university offers more than 200 courses during the University School of Medicine next August.

One hundred twenty-three students have been accepted to Loma Linda University School of Medicine for the 1970-71 school year, according to Walter B. Clark, dean of admissions.

Students who will enter the School of Medicine next August are:

Richard J. Anbheim, Tafomus Park, Maryland; Daniel G. Lewis, Salt Lake City, Utah; Raymond J. Lilly, Jr., Atlanta, Georgia; Alice Fong Cheung Lo, Hong Kong; David B. McMillion, Collegeville, Tennessee; Stephen P. McDonnell, Riverside; David D. McFadden, Barrie, Ontario, Canada; Winston L. Elliston, Knoxville, Tennessee; Marvin L. Meyer, Riverside; Paul R. Mere, Riverside.

Students discover smog adds new clothes 'wrinkle'

Smog may shorten the life of fabrics and make them more subject to wrinkles, according to studies conducted by two Los Angeles campus graduate students, Elizabeth S. Hosking, of Riverside, and Sylvia D. Krutch, of San Diego. They concluded that pollutants reduce the wear of fabrics, cotton with wash and wear finish being the weakest fabric tested.

The studies resulted from an observation made three years ago by Bob Hew, assistant professor of textiles. She noticed that her brand new draperies were showing unusual signs of wear, and she suspected smog as the cause.

Mrs. Hosking and Mrs. Krutch completed their master's theses on their tests. The actual tests were conducted in cooperation with Dr. Thompson and UCR, which let the women put 144 pieces of fabric in plastic greenhouses the university has set up to do tests on the effects of pollutants on organs.

Samples of fabrics were hung on lines beside fruit in 16 separate houses, some of which had filtered air in which pollutants were removed, some had samples of the air just as it is, and some had varying amounts of nitrogen dioxide added.

Cloth used in the tests were all-white samples (the University of North Carolina already found that pollutants can damage colored fabric), and the materials included 100 percent cotton, a cotton-polyester blend, polyester, cotton with a wash-and-wear finish, and polyester and cotton with a permanent press finish.

The material was tested periodically after one month of exposure to the varying conditions by placing switches in the fabric in a tumbler revolving at 3,000 revolutions per minute. After the samples were weighed to measure the amount of damage.

Doctors’ wives plot activities for SM alumni convention

The Women’s Auxiliary to the Alumni Association of Loma Linda University School of Medicine is planning a full schedule of activities for the wives of physicians attending the Alumni-Postgraduate Convention February 13-19, announces Mrs. George C. Cox, president.

Kicking off the proceedings will be a satire of the Huntley and Brinkley television news broadcast called “Rarefoot in the Gym,” presented on the stage of Loma Linda University’s Gentry Auditorium, Saturday, February 14, at 7:30 p.m.

School of Medicine and alumni students will perform in the play which will be entitled, “A School Project ‘Do Unto Others,’” which gives aid to widows and orphans of Loma Linda University alumni.

The convention, scheduled for February 15 to 19, will include refresher courses in various medical specialties taught by School of Medicine faculty members, and a scientific program featuring current research subjects by authorities from leading United States medical schools.

As well as interested physicians are invited to register for the refresher courses beginning Sunday, February 15, at 8:30 a.m., in the nursing amphitheatre on sixth floor of University Hospital.

The scientific assembly at the Ambassador Hotel will combine the sessions of the Alumni Association and the faculty of the School of Medicine. Samuel H. Fritz, M.D., chairman, department of Surgery; Isaac Sanders, M.D, Chairman, Scientific Program; Stanley Brinley, M.D., president, Alumni Association, will talk on “A Man Has Faced in Space.”

The 1970 Alumni Postgraduate Convention is produced by the Alumni Association of Loma Linda University Medical Center, Kettering Medical Center, Parkview Memorial Hospital, Brunswick, Maine, or call 886-7755.

“I didn’t get to go, but my son is going to college.”

Millions of parents want something better for their children. They’re sending their sons and daughters to college. Saving, spending, to do it.

They’re buying the best education the world has ever offered. But the fact is, tuitions aren’t paying for it.

Tuition, on the average, now cover only 1/5 the cost of higher education. The rest must come from other sources. The amount of the difference is billions of dollars, and growing annually.

Education for more of our young people (there are now over 7,000,000 in our colleges and universities) is more than an American dream come true. It’s an American need. These are our future doctors, lawyers, scientists, engineers, politicians and businessmen. They will help to shape our economic and social progress.

The costs that tuitions don’t cover can cause financial crisis in our colleges and universities. To keep higher education moving forward, colleges need more financial support from more individuals, and from more businesses.

To better understand the need, ask a college.

Give to the college of your choice.

CHERRY VALLEY

Kaleidoscope begins

The “prime mover” behind the “Kaleidoscope 70” events marking La Sierra’s silver anniversary is Robert E. Lorenz, MD, president of the La Sierra College Alumni Association.

Dr. Lorenz, class of ’51, is the head physician of the Neurology Clinic at White Memorial Medical Center, Los Angeles. In 1951 and 1952, while a La Sierra student, he organized a student public relations office that conducted promotional programs in academies throughout the Pacific Union Conference. For that service, he received the first La Sierra College Pacific Union Conference. For that service, he organized a student public relations events marking La Sierra University School of Medicine after spending an extra year in pre-medical study at the University of California at Los Angeles. He interned at White Memorial Medical Center and has spent time since in three hospitals, Glendale Adventist Hospital, Los Angeles County General Hospital, and the White Memorial Medical Center.

Dr. Lorenz was elected president of the alumni association at April and within weeks conceived the silver anniversary project and the campaign for the Harry Schrillo Fund. The alumni executive board and others spearheaded plans that culminated in a series of La Sierra College Alumni Association “rallies” conducted from May through November.

After John Pelt, class of ’53, pastor of the Valley Church, received a call to the Vallejo Church, received a call to

Mr. Tunney, who is campaigning for a seat in the United States Senate, Methodist Bishop Gerald Kennedy, of Arizona and Southern California, Tressa Drury, consumer adviser for Westinghouse, editor for Los Angeles radio station KFWB; United States Congressman James W. Syngington, former chief of protocol for the United States Department of State; William Glasser, MD, noted psychiatrist and author of the books Reality Therapy and Success without Failure.

Among the speakers will be prominent Seventh-day Adventists including Reinhold R. Bietz, chairman of the University Trustees and vice-president of the General Conference.

Five former presidents of La Sierra College who have served since 1945 will participate in several of the activities. They include Lowell R. Rasmussen, educational secretary for Pacific Union Conference, president from 1942-46; Godfrey T. Anderson, PhD, professor of religion and history, president from 1946-54; Noval F. Pease, PhD, chairman of the College of Arts and Sciences department of religion, president from 1954-60; William M. Landeen, PhD, professor of history, president from 1960-62 and 1962-64; and David J. Bieger, who succeeded Dr. Anderson in 1964 and became Loma Linda University president in 1967 when La Sierra College and Loma Linda University were merged. Missing will be the late Fabian A. Meier, PhD, who died in 1963 in his second year as president.

A wood carving of the six presidents by the La Sierra faculty member Alwin Toews will be presented to the University during “Kaleidoscope 70” activities.

Organ unveiled

“Kaleidoscope 70” will include the public unveiling of the new, custom-made Casio concert organ, a three-manual, 60-key instrument recently installed in Hobe Memorial Auditorium which replaces the Walt Disney’s “Two-Bit” mountain, with a rotating aluminum dome which weighs 1000 pounds. Campus radio station KLUL-FM (formerly KSDA), back on the air after a year of technical and legal problems, will be open to visitors showing the strides being made toward realization of a true University-wide broadcast service.

“Kaleidoscope 70” will begin with Congressmen Tunney’s address at 6:30 p.m. followed by the 7:45 p.m. and organ concert, presented by Donald J. Vaght, class of 1960, assistant professor of music.

Mr. Bietz will speak at the Tuesday student assembly scheduled for 10:20 a.m. in the La Sierra Seventh-day Adventist Church. His topic will be “Changing Pastors.”

Wednesday’s highlight will be the class of 1945’s reception for students of the class of ’70. A day of alumni-student seminars is scheduled Thursday under the heading, “Symposium I,” including the appearances of Bishop Kennedy, Mrs. Drury; and Dr. Glasser. At 7 p.m., will be the Silver Anniversary Gala, a commemoration and awards dinner. Featured will be the formal reunion of the class of 1945 and the first presentation of scholarships — 19 in all — from The Harry Schrillo Endowment and Scholarship Fund sponsored by the La Sierra alumni.

Victory dinner

The gala will be a “victory” dinner marking progress in the Fall fund campaign and guests will include contributors of $25 or more and student contributors of $10 or more.

Friday will feature “Symposium II,” the continuation of seminars, including the addresses and question-and-answer discussions with Mrs. Evers, on civil rights, and Dr. Hayakawa, on campus unrest. The Friday convocation will feature a keynote address by Sydney E. Allen, PhD, class of ’50, dean of the Philippine Union College School of Theology, Cagayan City, Philippines, on the topic, “Where Do We Go From Here?”

Saturday worship services are scheduled at 8:15 and 11 a.m. with Thomas H. Blinco, the

DONALD J. VAUGHN, assistant professor of music, stands beside the new Casavant organ in Hole Memorial Auditorium on the La Sierra campus. Mr. Vaughn will give the premier concert on the new organ during the "Kaleidoscope 70" celebration.

The new organ, however, incorporates advances which enable organ music from all periods, both baroque and contemporary, to be played. The "Kaleidoscope 70" concert will demonstrate that instrumental versatility.

The concert will include works of Bach, Mozart, Mendelssohn, and Dupre, from the baroque era, and will feature the contemporary "Concerto in G-Minor for Organ, String Orchestra and Timpany," by Francois Fournel. A string ensemble led by Alfred Walters, professor of music, will accompany Mr. Vaughn.

After graduating from the former La Sierra College in 1960, Mr. Vaughn spent two years in military service as a chaplain's assistant and then, from 1962 to 1963, attended the University of Redlands on an organ scholarship, receiving a master's degree in music. For four years he taught music at Columbia Union College, Washington, D.C., while he studied at the Peabody Conservatory, Baltimore. He has completed all work, except a final recital scheduled next summer, toward his doctoral degree. Included have been recitals played in Washington National Cathedral and in the Shrine of the Immaculate Conception.

The Casavant organ concert is open to the general public without charge.
CALENDAR OF EVENTS

A series of colorful and entertaining events marking the Silver Anniversary of La Sierra's class of '43 — first to be awarded the bachelors degrees. "Kaleidoscope 70" thus commemorates a quarter of a century of La Sierra's status as a full-fledged institution of higher education.

At press time — with the patterns of color still shifting some — the day by day highlights of "Kaleidoscope 70" are as follows:

(Events scheduled Monday, February 16, through Sunday, February 22)

MONDAY

6:30 p.m. — Opening ceremonies. Political address by United States Congressman John V. Tunney (Democrat, Riverside and Imperial counties), who is a candidate for the United States Senate. Hole Memorial Auditorium.

7:30 p.m. — Reception-press conference with Congressman Tunney following his address. Heil Auditorium, the Commons. (Students invited to join in the question-and-answer session.) Master of ceremonies: Gary M. Ross PhD, assistant professor of history.

8:15 p.m. — Premier concert on the new Casavant organ, presented by Donald J. Veverka, Bible teacher, Lynwood Academy, Lynwood.

TUESDAY

10:25 a.m. — Commemoration chapel. "Kaleidoscope 70's" keynote address, "Changing Patterns," by Reinhold R. Bietz, chairman of the Loma Linda University Trustees and vice president of the General Conference of Seventh-day Adventists. La Sierra Church.

WEDNESDAY

THURSDAY

Various departments of the College of Arts and Sciences and the School of Education will conduct seminars and other activities to which students, faculty, alumni, and the general public are invited free of charge.

Symposium I
1 to 2 p.m. — Address, "Controversy Over Computer Medicine," by J. T. Celentano, PhD, president, Life Systems Research Institute, Los Angeles, San Fernando Hall, Room 203.

(Other department of physics activities begin early as 8 a.m.)

1 to 2:45 p.m. — Address, "Purposes and Priorities," by the Gerald Kennedy, Methodist Bishop of Arizona and Southern California, sponsored by the department of religion. Hole Memorial Auditorium.

3:30 to 2:45 p.m. — Address, "Consumerism, Obstacle or Opportunity," by Tressa Drury, consumer adviser, Westinghouse and consumer affairs editor, radio station KFWB, Los Angeles, sponsored by the department of consumer related sciences. Room 101, Consumer Related Sciences Building.

FRIDAY

1:30 to 2:45 p.m. — Address, "Making Business Education Relevant," by Gene Davis, superintendent of education, Riverside County, sponsored by the department of secretarial and business education. Room 117, Fulton Memorial Hall.

2 to 5 p.m. — Address, "Schools Without Failure," by William Glasser, MD, psychiatrist and author of the books, Reality Therapy and Schools Without Failure, followed by a demonstration in which the audience use a group of about 20 La Sierra Academy students to illustrate classroom procedures. Sponsored by the School of Education. Hole Memorial Auditorium.

7 p.m. — Gala reception for distinguished guests, the participants in Symposium I, members of La Sierra College's class of 1945, former presidents of La Sierra College, alumni, students, and faculty. Chapparal Room, The Commons.

Symposium II
(Activities in The Commons will be shown by closed-circuit television to an expected overflow audience in Hole Memorial Auditorium.

9:30 a.m. — Civil Rights discussion by Mrs. Medgar Evers, assistant director for Negro Affairs, Civil Rights Office, U.S. Department of Labor, and Dr. Hayakawa.

10:05 a.m. — Break.

10:10 a.m. — Question-and-answer period with Mrs. Evers. (Arthur E. Sutton, master of ceremonies for Symposium II, will serve as moderator for this and subsequent discussions during the day.)

10:30 a.m. — Break.

10:45 a.m. — S. I. Hayakawa, PhD, president of San Francisco State College and noted semicentist, will speak on the topic, "Campus Unrest."

11:20 a.m. — Break.

11:25 — "Question-and-answer session with Dr. Hayakawa."

12 noon to 1:30 p.m. — Combined luncheon followed by a reception for Mrs. Evers and Dr. Hayakawa, from 1:30 to 2:30 p.m., in The Commons.

7 p.m. — Convocation. University choir and orchestra, directed by Bjorn Keyn. Forum, "Outreach — Changing Patterns," with William H. Taylor, MD, assistant professor of anatomy, moderator, and a panel of three students, three faculty members, and three alumni. Keynote address by Sydney E. Allen, PhD, class of 50, dean, School of Theology, Philippine Union College, California City, "Where Do We Go From Here?" La Sierra Church.

SATURDAY

8:15 and 11 a.m. — Saturday worship services with Thomas H. Blincoe, speaker, "The Changeless Pattern." La Sierra Church.

11:30 to 2:30 p.m. — Potluck "Eat-In" at The Commons.

2:30 to 2:45 p.m. — "Review and Preview," a narrative presented by Royal and Nancy Sage, focusing on La Sierra's past, present, and future. The Commons.

5:15 p.m. — Vesperals by Harold B. Hannum, professor of music and former chairman of the department of music, playing the organ, and Mrs. Hannum reading.

6 to 7:30 p.m. — Supper at four places: for pizza and tacos, at the Consumer Related Sciences Building, under the direction of the Home Economics Club; for burgers and milkshakes, in the snack shop; for a full meal ($1.35), in The Commons (during the regular serving period); and, for light snacks, in College Hall, at food booths set up for "Anniversary Expo."

6 to 8:30 p.m. — Anniversary Expo, an exposition featuring exhibits, demonstrations, tours, and other activities, at the Expo booths in College Hall and elsewhere on campus. Adults: $1.50; students, $1; children: 75 cents.

Drama students of Paul Hawks will present a play, "A Thing of Beauty," at 6:30, 7, and 7:30 p.m. (three performances) in the auditorium of the College Related Sciences Building.

The Burman-Schliff Architectural Sound and Light Production, "Revolution, Place, Symbol," will be presented in room 131, Communication Arts Building.

A photography exhibit will be presented in room 120, Communication Arts Building.

A foreign service exhibit in room 119, Communication Arts Building will feature a large color map showing overseas mission stations at which La Sierra graduates have served and are serving, and newly appointed La Sierra student missionaries preparing for one-year overseas tours.

Robert Seyler, a former La Sierra student who recently held a one-man show in the Ankrum Gallery in Los Angeles, will present "nail relief" works (pieces created by using boards and thousands of nails). Herschel Hughes, assistant professor of art, and Chloe A. Sofsky, chairman, department of art, will present a special exhibit featuring line drawings by students which trace the history of La Sierra from 1945 to 1970.

Radio station KLUL-FM, Loma Linda University's educational station, will give a radio demonstration.

Tours
Tours will be conducted at the new Barnard Observatory which, by means of telescope, will take you from the slopes of "Two-Bit" mountain on a "Trip to the Moon."

Expo booths in College Hall will include: "Food Production for Today's Needs," showing food production and processing of food, by the Agriculture Club and the department of agriculture.

"Voice Analysis — A Comparative Study of Animal and Human Vocalization." Continued on page 4
Approach," a department of biology demonstration in which visitors will see a Kay Sonograph machine record the frequency distribution of their own voices on graphs, which they may keep.

An inhalation therapy department exhibit from White Memorial Medical Center, Los Angeles, in which the effects of smog on chronic respiratory diseases will be demonstrated. Bedside and portable breathing apparatus for positive-pressure breathing assistance will be demonstrated in cooperation with the department of nursing on the La Sierra campus.

Business exhibit

"Business in the West, Then and Now," a recreation of a typical business office of a half century or more ago, complete with antique equipment and furniture, and for comparison, a modern office set-up with the latest available equipment, presented by the Business and Economics Clubs, and the department of business and economics and the department of secretarial and business education.

"From Theory Into Practice," a continuous videotape presentation of micro-teaching in the classroom presented by the School of Education.

"Table Clinic and Dentistry," a Loma Linda University School of Dentistry exhibit.

"A Growing Concern: Health Care," presented by the School of Health Related Professions, showing the development of health care in the United States and the role of supporting professions, with exhibits of the work those supporting professions perform.

"A Maquette of the Proposed Language Research and Culture Center to be Built in 1970," a department of modern languages exhibit on a slanting table and electrically wired so that different parts light up when visitors push the appropriate buttons.

Heart surgery exhibit

"Heart Surgery," a Loma Linda University Heart Surgery Team exhibit featuring motion pictures of heart-surgery and a simulation of operation of a heart and lung machine.

"The Universe: Laboratory of the Physicist," a department of physics exhibit featuring high temperature and plasma jet measurement, astronomical, seismograph, spectrograph, nuclear, and biophysics instrumentation.

"Have a Heart," a department of physiology and biophysics and department of biomathematics exhibit that, among the other things, will permit visitors to simulate heart injuries and then observe the abnormalities in electrical activities. Visitors will receive a cardiograph tracing of their own electrocardiogram, recorded by placing the index fingertip in beakers of water.

"Life and Dynamics of Living," department of psychology exhibit of the physiograph, electrical recordings from the human brain and nervous system of rats, used for monitoring behavior.

"The Health of Seventh-day Adventists," a graphic summary of scientific studies done on Adventists, presented by the School of Public Health.

SUNDAY

8:30 p.m. Galaxy music production. College Hall. (Featuring such groups as a reunion choral group composed of former Collegians, La Sierrans, and Chamber Singers, under the direction of Moses Chalmers and Paul Hill; The Rock Island Trio, the Uncalled-For Quartet, the Tursket Ramblers, and the Triple Trumpeteers, and soloists Norman Ault, folksinger, and Carl Holden.

9 a.m. to noon - Open House on the campus.

1 p.m. to 6 p.m. "University in Action," the Expo exhibits, held over from the night before, open (free) to the public.

10:30 a.m. - Brunch with Alonzo L. Baker PhD, professor of political science, author, and lecturer. The Commons. Adults: $1.25, students: 75 cents.

8 p.m. - Address, "Hunger is a Bad Adviser," by James W. Symington, United States Congressman from Missouri and son of Senator Stuart Symington, presented in conjunction with "Kaleidoscope 70" by the Artist and Lecture Series. College Hall. (Alumni, students and faculty admitted free with identification cards).
