Weimar Inn Gets New Roof

Renovation work is underway at Weimar Inn. By the end of next week the entire building will have a new roof. This was a very important step with the rainy winter season coming. The roof had been leaking in one spot, but will now be safe for years to come.

In addition to the new roof, the entire second floor is being updated. This week, furniture was moved out of all the rooms and the old carpet was discarded in preparation for the
renovation. The completed renovation will bring the Inn closer to the goal of housing various seminars including Depression Recovery programs and Reversing Diabetes seminars.

Work Education At Weimar

Weimar Academy and College have a strong emphasis on practical training. As part of this philosophy, all students perform practical work on campus as part of their education. Not only do they learn skills that can’t be taught in the classroom, but they also are able to reduce their school bills by working. The work education program is just one way that Weimar Center seeks to provide true education to students.
Your Communications

One reader writes: “I cannot Thank You enough for these weekly updates on Weimar. How great it is to hear how God is working in other areas. My prayer is that Weimar will continue to be a faithful voice for truth and will continue to expand throughout the world.

“As a side note, as Personal Ministries director for my church, I forward your weekly update to all our church members and have received much favorable response.

“Keep up the good news.”

We hope you enjoy reading about what God is doing at Weimar. If you have a comment, story, or question, we would love to hear from you! Write to communication@weimar.org

God bless,
