Hello everyone,

Today on my daily walk I thought to myself, *If people lose their health, they've lost everything.* How true this is! In these difficult days when chronic diseases kill millions, I'm more convinced than ever that a healthy diet, regular exercise, lots of water, plenty of sunlight, and the right amount of sleep can keep us alive longer so that we don't "die before our time" (Ecclesiastes 7:17). Honestly, there are no quick fixes or magic pills. *Good health takes work.* But the benefits of wise choices are fabulous.

That said - **and this is where our Special Offer comes in** - we are White Horse Media also strongly believe that as part of a healthy lifestyle it makes good sense to include a daily dose of a high-quality, whole-food based "Super Nutritious Green Drink" to give our body's 70 or so trillion cells an extra nutritional boost to help us fight disease.

Because of this, in addition to our regular books and DVDs, White Horse Media now sells the "Super Green Phyto-Complex" (Regular or Tropical flavor) developed by Dr. Rob McLintock of Healing Leaves Products.

Dr. Rob is a personal friend of mine, and *I know his drinks are healthy for our bodies.*

We just designed a special ad for Dr. Rob's nutritious drinks, which includes **A Special Offer.**

To receive our Special Offer, you must call us (1-800-782-4253) and mention this offer.

I'm sure that many of your already use Green Drinks from other sources. If so, consider ours too. Dr. Rob's drinks are super healthy (check out the ingredient list), and they taste good too. If you purchase your Super Green Drinks from us, you will not only bless your body, but you will also help White Horse Media with extra funds to spread God's Word.

These drinks make excellent Christmas gifts!

Wishing you health and happiness from Him,

Steve Wohlberg

Bestselling author Steve Wohlberg’s eye-opening book, *Surviving Toxic Terrorism*, reveals these sober facts: 1) Our generation is sick and needs help! 2) Our food supply is saturated with processed, refined, devitalized junk food, 3) Our air, water, food and homes have become contaminated with toxic chemicals highly hazardous to human health, 4) We must make positive lifestyle changes such as getting regular exercise, drinking more water, and eating lots of fruits and vegetables in order to avoid killer diseases, 5) We should enhance our body’s natural "detox" abilities to rid ourselves of dangerous pollutants, 6) Because most farming soils are deficient in vital minerals, it is wise to flood our body’s 60-100 trillion cells with “super nutrition” from well-established “super foods” to enhance our health, well being, and happiness.
