If we lose our health, we've lost everything (almost). Tragically, ours is a critically sick, over-weight, overly medicated generation. Cancer, heart disease, diabetes, and other killers abound. No one is immune. Not me. Or you. We're all at risk. If there was ever a time when
simple, practical, low cost, true-to-science health information was desperately needed, *that time is now.*

Being healthy:
1. Saves money in medical bills
2. Lessens (or even eliminates) dependance on costly drugs
3. Results in cleaner blood, stronger bodies, and healthier brains, which enables us to better detect Satan's snares
4. Helps us avoid an early grave
5. Makes us feel better
6. Enables us to accomplish more, and enjoy life more
7. Above all, we can serve our Creator better, and longer

Jesus Christ "healed" more than He preached (see Matthew 4:23, 24). He sent His disciples to "heal" too (Matthew 10:1). Thus our work as His followers is not only to preach His gospel, but also to teach health principles, all the while trusting the One who says, "I am the Lord who heals you" (Exodus 15:26).

My new pocketbook, *Fabulous Health Made Simple,* was written for the Average Joe. It's perfect for sharing with relatives, friends, co-workers, and strangers, and is a great resource for those involved in health ministry. You probably know someone who may not be interested in Jesus, but who is concerned about their health. If so, this easy-to-read pocketbook is *the perfect tool* for sharing Bible truth. Not only can it help readers avoid sickness, but it will introduce them to The Great Physician, who loves us all.

Here's what one doctor says about *Fabulous Health Made Simple:*

*This book, quite frankly, could help reverse our country's health crisis.*

*It is a must-read for all who are seeking to improve their health.*
