Good evening,

In this week’s eCommunique I included information about the NAD Ebola Crisis campaign. Please see the following message and take appropriate action with the previously distributed materials. Thank you!

Previously you received promotional information for the NAD Ebola Crisis campaign which included a printable bulletin insert/poster. It has come to our attention that this insert/poster did not contain all the credit information needed for the featured picture. Therefore we are asking that you communicate with any churches that this file was forwarded to asking them to destroy any copies made of that original insert/poster, and replace it with the updated version attached with this message. Also, it is important to communicate that the original image should not be used on any website or social media site.

I apologize for any inconvenience that this has caused and appreciate your support of this important campaign.

Blessings, Maitland DiPinto
Adventist Community Services, Hope for Humanity

More than 5,000 people have lost their lives to Ebola. But there is help and hope!

You can make a big difference by going to:

hope4.fundly.com/ebola-crisis

- Make a donation
- Learn more about what’s needed
- Click on one or more of the icons to share the campaign on Facebook, Twitter, and other social media.
- Use the email icon to share with friends, family, and co-workers what your church is doing to meet this crisis.

Seventh-day Adventist Church in North America

Partnering with:
Cooper Adventist Hospital | Waterloo Adventist Hospital
GC Health Ministries | Adventist Health International | ADRA International

★ For your donation to start providing life-saving assistance immediately to those in need please use one of the online sites above. If you prefer to give at Church, mark your donation “Ebola crisis”

Revised: 11-6-14
**PULPIT ANNOUNCEMENT**

Right now, there are tens of thousands of our brothers and sisters that are suffering at the hands of the deadly Ebola virus outbreak in West Africa. In the last eight months, over 9,000 women, children, and men have been infected with the deadly virus. Over 4,500 of God’s children have died.

The Seventh-day Adventist Church responded immediately to meet the needs of those impacted by this deadly disease.

Cooper Adventist Hospital in Liberia and Waterloo Adventist Hospital in Sierra Leone are working together with Adventist Health International, Loma Linda University, the General Conference Health Department and ADRA to continue to provide lifesaving support in the affected area.

Hospitals are said to be the most dangerous place you can be right now. That is why it is important to show support to these brave medical professionals that are working to maintain a level of safety and health for the patients they are treating. Some of the greatest needs are gloves, masks and surgical gowns as well as other much-needed equipment to help maintain a level of safety and protection for the physicians and patients.

The Adventist Church in North America has a goal of raising $250,000 to support the Adventist team that is battling Ebola.

We need your support now! Every day that passes more people will suffer the hands of this deadly virus.

To ensure your lifesaving donation is immediately put to work on behalf of the suffering in West Africa, please give through the campaign website: hope4.fundly.com/ebola-crisis

If you prefer to give via your offering plate, please mark your envelopes “EBOLA CRISIS” and please give generously so we may become God’s loving hands serving His children in need.

**BULLETING ANNOUNCEMENT**

Ebola Crisis--Adventist Partners Saving Lives: PLEASE DONATE NOW!

More than 4,500 of God's children in West Africa have lost their lives to Ebola. But there is HELP and HOPE! Contribute to the Seventh-day Adventist Church's Campaign to Support Cooper and Waterloo Adventist Hospitals that are on the frontline of the fight against Ebola!

YOU can help SAVE LIVES (and get more information) by going to:
