When I was a child, I was read to all the time and also read myself once I began knowing how to do that. I remember hearing/reading Uncle Arthur’s Bedtime Stories. One story was especially intriguing to me. It was about a young mother who left her baby momentarily to visit a neighbor. [In today’s time, this would be considered negligence, but there were different rules then.] While visiting, the mother and neighbor heard sirens. It turned out to be a fire engine and it was headed to the young mother’s house! The mother followed and pushed through the crowds which had run to gather around her house. As she reached the front door, she was stopped by a fireman, but she pushed past him to get inside and save her baby. A fireman had to carry her out or she wouldn’t have made it. Years later, her daughter, noticed her mother’s scarred hands (badly burned in the fire) and asked about them. The daughter thought they were very ugly. The mother told her the story of the fire. The daughter then realized just how much her mother must love her. Someone else braved a “fire” to save us. His scarred hands tell us just how much He loves us, too. They are beautiful! What is your response to Him today? —Sue
Thank you for your cooperation in the following matters:

Congratulations, Graduates!

You made it! Remember, per your Lease Agreement, you must pay rent for every day you are here.

See moving notice.

Are you moving?

Have you turned in a 30-day notice?

Rent will be charged for every day you and/or your personal things are in the apartment.

If you have mail that is not addressed to you and/or members of your household, please bring that to the office regularly. We will take care of it. It is a Federal offense to hold onto the mail of someone else.

Please note: If it is addressed to “Resident” or “Occupant,” that means you. If you do not want it, please throw it out.

The garbage disposals were only made to take care of your table scraps. Please DO NOT place anything else down them or they will break.

When placing a work order with the office, please keep in mind three things:

1. The office workers do not generally know when the technician will go to your apartment to fix something. They go as soon as they are able to go. If it is a plumbing or electrical issue, chances are the office personnel will not even see the technician at all as this is a worker from a different department.

2. The office workers are not always told immediately that something has been fixed so if your repair has not been fixed within a reasonable amount of time, kindly give a reminder call to the office.

3. Currently, we have a situation which requires the utmost caution on our part. In order to keep everyone (including you and your family) as safe as possible, we are only addressing emergencies. Thank you for your patience with us.

It is almost summer and people are out running, walking, playing sports and riding bikes/skateboards. Parents, please remind your children that riding bikes/skateboards near the apartments is VERY dangerous for them and for someone who may accidentally be hit. The long sidewalk between Garland and Beechwood is where bikes and skateboards should be ridden. Also please remind them that our residents are students and need quiet time for study and sleep. There are playgrounds by Garland G and Garland F as well as basketball courts behind Garland F and Garland G that are very good places to play. Please remind them to play there instead of in and around the buildings. Lastly, please be cautious when driving along the roads beside/behind the apartments and in the parking lots. Someone (especially a child) could run/ride out in front of a car at any time. Driving slowly and cautiously can help ensure the safety of everyone in and around the apartments.

Please do not put wipes down the toilet. Our plumbing will not handle it and you will end up with a clogged toilet. Thank you.
