

### Job Placement Information

In spring of 2012, 547 Andrews University alumni who had graduated five years previously (in 2007) were asked about their placement in a job or further studies one year after graduation. Of the 77 who responded (14%), 89% were employed and/or enrolled in graduate study one year after graduation. Of those employed, 70% were in jobs “very related” and 21% were in jobs “somewhat related” to their Andrews degree. Of those who were enrolled in further studies, 68% were enrolled in programs “very related” and 26% were in programs “somewhat related” to their Andrews degree.
