University Credit for High School Students

Andrews University offers a college online learning adventure to Christian high school students like you! If your GPA is 3.0 or higher, ask your parents and school counselor about adding one or two classes each semester in your junior and senior year.

Registration is now open for Fall 2016 and Spring 2017, at just $125 per credit hour! Check with your high school to see if the Andrews University credit you earn will also count as high school credit.
