“For both scholars and ordinary readers, this Andrews Study Bible is an idea whose time has come.” —Richard H. Hart, President, Loma Linda University
This verse-by-verse commentary offers a text-focused and Christ-centered approach to the book of Revelation. Appropriate for personal study and as a college and seminary text, this volume provides both in-depth notes and lay-oriented exposition for use by scholars, students, pastors, and laypeople. An ever-increasing interest in the prophecies of the Apocalypse has resulted in deeper understandings which are introduced in this updated edition.

“No reader will come away from the book empty handed but will gain fresh insight into the message and theology of the book and a renewed sense of faith and hope in the Jesus of Revelation.” –Felix Cortez, Ph.D., Associate Professor of New Testament Studies, University of Montemorelos

“Of particular interest is Stefanovic’s historicist approach in the interpretation of Revelation and his desire to show how events in history and prophecies are interrelated.” –Denis Fortin, Ph.D., Dean, Professor of Theology, Seventh-day Adventist Theological Seminary, Andrews University

“All those interested in apocalyptic literature should take advantage of the helpful content of this new edition.” –Alberto R. Timm, Ph.D., Rector of the Latin-American Adventist Theological Seminary
This book studies the question of whether the “sabbath” of Colossians 2:16 refers to the Jewish ceremonial sabbaths or to the Decalogue Sabbath. Grounded on a high view of scripture, du Preez’s conclusions challenge any argument that relies on Colossians 2:16 to deny the continuing moral imperative of the seventh-day Sabbath.

The Lost Meaning of the Seventh Day

Sigve K. Tonstad

Sigve K. Tonstad recovers the profound and foundational understanding of God that can be experienced in the seventh day. He shows that Scripture has consistently asserted that the Sabbath of Creation is the Sabbath of the whole story of how God makes right what has gone wrong in the world. This sweeping work of biblical theology and historical analysis traces the seventh day as it is woven throughout Scripture and the history of Christianity.

“Sigve Tonstad’s wide-ranging study of biblical teaching about the Sabbath offers fresh, provocative readings of texts from across the entirety of the canon, while constantly engaging the best recent scholarship. The result is a luminous, deeply encouraging book that beckons readers to understand the seventh day as a celebration of God’s gracious work of creation and God’s faithful intent to restore and heal all that is broken.” –Richard B. Hays, George Washington Ivey Professor of New Testament, The Divinity School, Duke University

“Usually I have trouble reading for a long period such massive tomes as this, but Tonstad’s writing is so stimulating that I couldn’t put the book down! Tonstad is a master of both biblical exegesis and historical scholarship. I heartily recommend this book to all who love God and the Sabbath Day and to all who yearn to grow in that love.” –Marva J. Dawn, author of Keeping the Sabbath Wholly and In the Beginning GOD; Teaching Fellow in Spiritual Theology, Regent College

Sigve K. Tonstad
(Ph.D., New Testament studies, University of St. Andrews; M.D. Loma Linda University), originally from Norway, is assistant professor of religion and associate professor of medicine at Loma Linda University in California.
Popular claims about the old and new covenants have diminished the gospel and narrowed the faith and spiritual life of millions of Christians. Those claims have introduced confusion about what it truly means to “keep the commandments of God and the faith of Jesus.” Christians earnest in their walk with the Lord will see a dynamic element of the gospel in the profound relationship between love and law. They will, perhaps for the first time, understand the apparent dichotomy of old and new covenants in the New Testament. And in the process they will be confronted with a powerful appeal and an unmistakable warning. Study guide available.

“MacCarty invites his readers to celebrate with him the glorious fact that in the old covenant, as much as in the new covenant, God offers a ‘grace-based, gospel-bearing, and mission-directed’ covenantal relationship with Himself. Until Christians grasp this message, the Old Testament will remain a dead book to the church.” – Daniel I. Block, professor of Old Testament, Wheaton College

How do we align concerns about the place of the Ten Commandments in the public square with a message that often seems to stress that those same commandments have been nailed to the cross? Hans LaRondelle traces through salvation history the footsteps of the Creator Redeemer in progressively revealing His covenant promises and His judgments. From a “redemption-historical” perspective, based on careful exegesis, the author outlines the unity and continuity of God’s covenants with His chosen people.

LaRondelle allows the Bible to act as its own expositor by pointing to the New Testament as the basis for prophetic interpretation. Attention is given to the Old Testament prophecies concerning Israel and how the New Testament prophecies do not support the dispensationalist view.
Throughout this volume God is seen in an eternal relationship as a relational Trinity—His nature being love and all His attributes compatible with His nature. This God of love is found in His self-revelation in Scripture, which remedies the traditional distortions about Him. The purpose of this volume, and this system, is to magnify and glory in the universal love of God. This is the fullness of the gospel.

Systematic Theology
God As Trinity (Vol. 2)
Norman R. Gulley

“Norman Gulley’s Prolegomena is an encyclopedic introduction to systematic theology that is philosophically penetrating, historically informed, and biblically faithful. A compelling contribution to the scholarly study of the ‘queen of the sciences,’ it is particularly relevant to the challenges and opportunities presented by the postmodern world.”

–Bruce Demarest, Professor of Christian Theology and Spiritual Formation, Denver Seminary, Denver, Colorado

Systematic Theology: Humanity, Christ, and Salvation (Vol. 3)
I Used to Be Perfect, 2nd ed.

George R. Knight

Reign of God, 2nd ed.
An Introduction to Christian Theology from a Seventh-day Adventist Perspective
Richard Rice
A systematic approach to theology discussing the doctrines of the Seventh-day Adventist Church with striking simplicity and clarity. Suitable for use in beginning college religion courses or for the layperson wanting to better understand basic Adventist beliefs.
William Foy was a black Freewill Baptist Millerite preacher who experienced two visions about the Second Coming of Christ and published this record of them in 1845. These visions were similar to early ones experienced by Ellen G. (Harmon) White who later became one of the founders of the Seventh-day Adventist Church.

In the face of much opposition, hundreds of thousands of Americans, from Maine to Ohio to Washington DC and beyond, believed or hoped or perhaps feared that the world would be destroyed by fire at the Second Coming of Christ on October 22, 1844.

Narrated by Academy Award-winning actor Cliff Robertson, this feature-length film documentary tells this poignant story of one of the most remarkable episodes in the history of modern religion. Using original documents, stunning location footage, rich contemporary drawings and paintings, expert commentary, and moving readings from writers of the time, this film draws a captivating picture of the time thousands of citizens urged a nation to prepare to meet their God.

William Foy was a black Freewill Baptist Millerite preacher who experienced two visions about the Second Coming of Christ and published this record of them in 1845. These visions were similar to early ones experienced by Ellen G. (Harmon) White who later became one of the founders of the Seventh-day Adventist Church.
Women in Ministry
Biblical & Historical Perspectives

Nancy Vyhmeister (Ed.)

An ad hoc committee on hermeneutics and ordination from the Seventh-day Adventist Theological Seminary provides thoughtful answers to good questions: Does Paul really prohibit women from speaking in church? What does Ellen White say about ordination? What role did women play in ministry in the New Testament? How does culture influence the way we understand the Bible? Does the Bible forbid the ordination of women? Also available as an e-book in Spanish (Mujer y Ministerio) at universitypress.andrews.edu.

Questions on Doctrine
Annotated Edition

Notes with Historical and Theological Introduction by George R. Knight

This is a completely new typeset of the monumental 1957 classic, containing an extensive historical and theological introduction and detailed in-text notations by George R. Knight.

Originally produced by the Ministerial Association of the General Conference of Seventh-day Adventists, Questions on Doctrine was widely acclaimed and distributed in the late 1950s and early 1960s as a forthright answer to questions from evangelicals about key elements of Adventist doctrine. Controversy regarding the book’s position on the nature of Christ and the atonement soon stopped its circulation.

Knight’s introduction provides the background for how the book came about and describes the interaction of the principal players involved in the crisis that shelved this classic work for more than a generation.

Many Voices
An Introduction to Social Issues

Herbert W. Helm, Jr., & Duane C. McBride (Eds.)

Many disciplines study human behavior. Each discipline has its own perspective on why humans exhibit particular behaviors, and on the origins of social problems and their solutions. Specialists from various fields see social issues through their own set of assumptions. The purpose of this text is to present these differing perspectives. The student will gain a richer understanding of the social issues themselves and of how social scientists and specialists from other related disciplines approach them. Forty authors from fifteen institutions and a variety of disciplines have contributed to this book.

As an intentionally cross-disciplinary text, Many Voices gives special attention to the roles and relationships of religion and culture. In many aspects of society, the effects of culture and religion are powerfully intertwined. An understanding of one helps us understand the other. It also helps us understand that there are, indeed, many voices behind the social issues and problems of our time.
This volume presents an argument for constructive thinking about origins and earth history in the context of Scripture, showing readers how to analyze available scientific data and approach unsolved problems. Faith does not need to fear the data, but can contribute to progress in understanding earth history within the context of God’s Word while still being honest about unanswered questions.

The original edition of this work (1997) was one of the first books on this topic written from the point of view of an experienced research scientist. A career biologist, paleontologist, and teacher, Brand brings to this well-illustrated book a rich assortment of practical scientific examples.

This thoughtful and rigorous presentation makes Brand’s landmark work highly useful both as a college-level text and as an easily accessible treatment for the educated lay person.

Issues and Alternatives in Educational Philosophy, 4th ed.

George R. Knight

It is suited to fit the needs of undergraduate survey courses in educational philosophy, graduate students who need a quick review of the topic, and teachers of educational philosophy who want their students to spend maximum time in primary sources while utilizing a comprehensive survey text for orientation and overview.
Matthews examines key issues such as why Christians should study sociology, how sociology can facilitate faith integration, and how the church should relate to the challenge of post-modernism.

Land examines the integration of historical knowledge into a Christian worldview and its implications for teaching, scholarship, and life.

By introducing the writings and ideas of notable Christians who have grappled with the interrelationship between literature and Christian belief, Davis offers literature teachers and students of literature the opportunity to examine the implications such integration has for their teaching, scholarship, and spiritual lives.
