Bible Chronology Poster

L. S. Baker Jr

Because of the relative dating method found in Scripture, modern scholars use different systems to understand how these relative dates should be reinterpreted as absolute dates. Here we provide a chronology that follows one of these systems. These dates begin with the most recent and move backward toward the beginning of biblical chronology. The dates given here should not be taken as the final word on the matter. This chronology is presented as a reference tool. Major events are highlighted with bold text. Biblical references are provided for entries based on chronological statements or statements about the event in the text.

Andrews Bible Commentary

Light. Depth. Truth.

Ángel Manuel Rodríguez

General Editor

The *Andrews Bible Commentary* is a companion to the *Andrews Study Bible*. Together they provide a remarkably comprehensive and concise Bible study resource.

The *Andrews Bible Commentary* was written by 60 leading biblical scholars from around the world. It's designed for the new believer, the experienced Bible student, pastors, and teachers. Its purpose is to trace the blessed hope (Titus 2:13) in the pages of Scripture and to read all of the Bible in the light of that hope.

What does the Bible say to believers who, with both longing and joy, anticipate the return of Jesus?

Answering that question is at the heart of the *Andrews Bible Commentary*, which seeks to instruct and inspire all to form a stronger personal relationship with God that focuses worship on Jesus as Savior and Lord.

"I am so incredibly proud and grateful for the work of these scholars of the church in this first-of-a-kind Commentary. They placed themselves in the hands of the Lord and they have made an outstanding contribution that will bless the church for years to come. I have been honored and privileged to be part of the team."

The Genesis Creation Account and Its Reverberations in the Old Testament

Edited by Gerald A. Klingbeil

Textual data of the Old Testament clearly portray an overarching understanding and theology of creation that permeates every biblical genre and book. The Genesis Creation Account and Its Reverberations in the New Testament

Edited by Thomas R. Shepherd

When the first two chapters of Genesis say that God created our world and the human race in a particular way, did the Bible really mean that? If not, can it really mean what it says about everything else, particularly the grand themes of redemption and eschatology? This work provides a detailed cultural, historical, and theological background to the creation theme and exegetical studies of how that theme is illuminated by the various New Testament writers. Is creation a major theme in the New Testament? This volume answers that question with a resounding “yes.”

Ranko Stefanovic is professor of New Testament at the Seventh-day Adventist Theological Seminary at Andrews University in Michigan. He holds a PhD degree from Andrews University and is a well-loved teacher, popular speaker, and author of scholarly articles.

Plain Revelation

Ranko Stefanovic

In today's world, no other part of the Bible inspires so much interest, speculation, sensationalism, and confusion as the book of Revelation. Paradoxically, no other book of the Bible inspires so much confusion as does Revelation. In this concise reader's introduction, Revelation expert Ranko Stefanovic makes it all plain and simple. In a straight-forward, no-nonsense way, the author leads us scene by scene through this amazing panorama of cosmic war and glory. Through it all, we see the astounding picture of a Creator God who wins it all with justice and love as

Jesus Christ is plainly revealed as King of Kings and Lord of Lords.

“Aunque todos los libros de la Biblia fueron inspirados por Dios, ningún otro libro de las Sagradas Escrituras presenta a Jesucristo como su autor, ni muestra el futuro como lo hace el Apocalipsis. En esta versión abreviada de su comentario del libro del Apocalipsis, el Dr. Stefanovic transmite con fluidez y claridad los conceptos principales de su obra original. Este libro debiera ser leído por todos aquellos que vivimos en la undécima hora de la historia de nuestro planeta.”

Daniel 11 Decoded

Jacques Doukhan

Daniel 11 is widely described as one of the most cryptic, complex texts in the Bible. Perhaps more than any other, it uses seemingly heavily coded language while ostensibly describing world events from the Persian period to our day. Thus, credible attempts by faithful scholars to read that code can lead in markedly different directions.

Writing from a solidly historicist perspective on prophetic interpretation, Jacques Doukhan lays the groundwork for this masterful study of Daniel 11 by (1) critiquing the history of its interpretation; (2) observing its literary context; (3) closely examining its relationship to Daniel 8; (4) decoding the meaning of particular expressions; and (5) giving particular attention to the words, grammar, and literary structure of the chapter.

Judging the Sabbath

Discovering What Can't Be Found in
Colossians 2:16

Ron du Preez

Sabbatarians have argued for centuries that the "sabbath" of Colossians 2:16 refers to the Jewish ceremonial sabbaths, and not the Decalogue Sabbath, based on a plain-sense reading of the context. In a wide-ranging engagement with Scripture, du Preez unveils evidence pointing forcefully against the traditional interpretation.

Grounded firmly on a high view of scripture, du Preez's conclusions challenge any argument that relies on Colossians 2:16 in order to deny the continuing moral imperative of the seventh-day Sabbath.

God with Us

An Introduction to Adventist Theology

John C. Peckham

The story of Scripture is largely the story of God making a way to overcome sin and defeat evil so that God can be *with us* in fullness. That is, the story of Scripture is the story of God's desire to be specially and personally present *with us* in a union of love.

We hear so often: "You ask too many questions." "You just don't have enough faith." Or "We should not ask questions like that!" However, the better we come to know God, the more we come to love Him and the less threatened we are by honest questions. Truth loses nothing by close investigation. To wrestle with God is acceptable, even as Jacob did (Gen. 32), as long as you refuse to let go of Him.

This book is an introduction to Christian theology from an Adventist perspective. It is written in a reader-friendly, "theology for everyone" format that can serve both as an introductory college textbook and as a sourcebook for general readers seeking to deepen their biblical knowledge and faith.

It encourages readers to ask, seek, and knock, as Jesus Himself invited people to do, and allows readers to see biblical teachings for themselves by offering a biblically-based introduction to the main elements of Adventist theology.

Sigve K. Tonstad

This sweeping work of biblical theology and historical analysis traces the profound meaning of the seventh-day Sabbath throughout Scripture and history. It also investigates how this universal symbol became obscured and considers its relation to social issues in our time.

Design and Catastrophe

51 Scientists Explore Evidence in Nature

Edited by L. James Gibson, Ronny Nalin, and Humberto M. Rasi

In this unique book, 51 professional scientists, men and women of faith from a wide range of disciplines, provide short essays in their respective areas of expertise demonstrating some aspect of the design:catastrophe paradigm. Though written by experts, the essays are easily accessible to non-specialists, making this book extremely useful in the college and seminary classroom, and for the lifelong learner.

Justice for Genesis

A Scientific Exploration

J . C. Walton

This comprehensive account of philosophical, scientific, and other scholarly matters relating to Genesis deals with philosophical questions about God and the miraculous. Careful consideration is given to scientific issues about chronology, scholarly findings about the text, and archaeological discoveries. It brings together a host of information supporting the historical reliability of Genesis and the impact this has on its message for today. After describing the impact of the secular naturalist worldview on the understanding and interpretation of Genesis, it suggests that now is the time to reconsider Genesis because two major fields underpinning secular naturalism (uniformitarian geoscience and evolutionary biology) are steadily losing credibility.

Faith, Reason, and Earth History, 3rd ed.

A Paradigm of Earth and Biological Origins by Intelligent Design

Leonard Brand and
Arthur Chadwick

This volume presents an argument for constructive thinking about origins and earth history in the context of Scripture, showing readers how to analyze available scientific data and approach unsolved problems. Faith does not need to fear the data, but can contribute to progress in understanding earth history within the context of God's Word while still being honest about unanswered questions.

The original edition of this work (1997) was one of the first books on this topic written from the point of view of an experienced research scientist. This fully updated third edition includes additional contributions from co-author Arthur Chadwick. In this patient explanation of the mission of science and its application to questions about origins and earth history, the authors model their conviction that "above all, it is essential that we treat each other with respect, even if we disagree on fundamental issues."

This thoughtful and rigorous presentation makes this landmark work highly useful both as a college-level text and as an easily accessible treatment for the interested layperson.

The Faith and Learning series, co-sponsored by the Center for College Faith at Andrews University and the Department of Education of the General Conference of Seventh-day Adventists, addresses the challenge of teaching "secular" material in a way that meets the Christian's goal of building faith not only in the Christian message but also in the Adventist understanding of Christianity and in its mission to the world. Teachers and students can turn to these supplemental texts for insights about how to weave faith into their studies.

Sutherland House

Originally named Brooknook because of its vantage point overlooking Lemon Creek, a tributary of the St. Joseph River, Sutherland House was built in 1902. It was the first building erected on the Andrews University campus when the institution, then known as Battle Creek College, was moved to Berrien Springs, Michigan, and renamed Emmanuel Missionary College in the fall of 1901. The spacious two-story structure was built as the home for the school's president, Edward A. Sutherland, and was later used variously through the years as a women's residence, infirmary, and

housing for married students. By the early 1980s it was in a very poor condition and was slated for demolition. A University Trustee, Elsie L. Buck, persuaded her colleagues to save the building. Mrs. Buck raised the funds necessary for a complete renovation, and the house re-opened in 1987 as the headquarters for the Institute of World Mission. When that organization moved to new quarters in the Seminary building, Sutherland House, with the addition of a new "carriage house" that serves as the warehouse, became the home of Andrews University Press in 2005.
