

Active Learning vs. Lecture

Active Learning

- * student centered
- * knowledge structures changing
- * collaborative to independent learning style
- * open, decentralized classroom
- * contextualized knowledge
- * small group setting
- * students dialogue
- * teacher acts as facilitator, environment-setter
- * transformational

Lecture

- * teacher centered
- * passive learning/memorization
- * dependent learning style
- * structured, centered classroom
- * knowledge-out-of-context
- * individual competitive setting
- * students listen
- * teacher acts as expert, authority figure
- * traditional
